## Start Move for Vote on Charter

### ELECTION PLEA IS PLANNED

Council to be Petitioned: Result of Plan Initiated by Lions Club

**BISHOP EXPLAINS LAW AS TO STEPS NEEDED**

Document Already Shaped Here Could Be Used, if Deemed Suited

The Santa Ana Lions club, meeting at St. Ann's Inn today, took the initiative in a definite movement for submission of another charter to the voters of Santa Ana.

The active step was taken when the secretary, John A. Henderson Jr., was authorized to write J. C. Metzgar, secretary of the Chamber of Commerce, to request the civic affairs committee of the Chamber to prepare a petition to the city council asking that an election be called for the selection of a board of freeholders to frame a charter.

Attorney Clyde Bishop made an address on the subject of a city charter, following action by the club some weeks ago in which it was indicated that members of the organization felt that another attempt should be made to bring the charter matter to a vote.

Can Use Old Charter.

Bishop pointed out that the proceedings gone through in the former attempt to secure a charter would have to be duplicated. The charter framed by the former freeholders, he said, could be submitted if a new board should deem it advisable.

The attorney explained the various steps necessary to be taken to get the subject before the voters. He declared that the city should be operated under laws of its own, rather than regulations established by the state legislature. Each city, he said, had its particular problems, and all cities could not be successfully conducted under one general law.

Ask Many Questions.

M. B. Wellington, president of Kiwanis club, also expressed himself on the charter, as did Wayne V. Goble. The many questions plied by members of the club evidenced their interest in the charter movement.

Formal action was taken on motion of Dr. C. R. Layne.

Harold Yost was chairman of today's program.

The club membership voted to become responsible for delivery to the Boy Scout camp at Barton flats of the third contingent of scouts to go into camp from this city.

R. L. Bisby, on behalf of the Inn management, asked club members to support the hotel in every way possible.

RELEASE U. S. SLEUTH

MEXICO CITY, July 13.—M. K. Simmons, American detective, held by police since the investigation of the kidnapping of A. Bruce Bielaski, American oil operator, started, was released today. It was reported that he was freed on condition that he leave Mexico.

### Urge Law to Halt Alleged Gas Monopoly by Standard

BY PAUL R. MALLON, (United Press Staff Correspondent)

WASHINGTON, July 13.—A denunciation of the policy of the Standard Oil company in "continuing to maintain a monopoly" of the gasoline supply of the United States was contained in a report to the federal trade commission to congress today.

Immediate legislation to prevent interlocking stock ownership among the various Standard Oil concerns was suggested as the only solution of the situation.

The combination is now apparently "within the law" in view of the supreme court interpretations of the Sherman anti-trust law. These decisions permit common stock ownership in corporations which have been members of a combination dissolved under the Sherman law and hence the only remedy open is creation of a new law to prevent such action, the reports adds.

### QUIZ YOUTHS CALL GLORIA SWANSON IN WILL CASE

Sheriff Holds New Clew In Murder of School Girl and Chum

FRESNO, Cal., July 13.—Three of Sheriff Jones' promising clews to the murder of Pauline Grass and Alex Winter were explained away early today. Two youths supposed to have owned a flashlight found near the girl's body produced their own flashlight. They also produced a "queer gun" they were said to have been seen with. Likewise they satisfactorily explained their whereabouts on the night of the double murder.

LOS ANGELES, July 13.—Prospect of seeing Gloria Swanson, screen vamp, known as "the best dressed woman in the movies," take the stand and tell the strange story of her alleged influence over Mathew P. Burns, wealthy shoe merchant today lured throngs to Judge Rive's probate court where Burns' relatives are contesting the will by which he left his \$100,000 fortune to Gloria and Mrs. Adeline L. Burns, his widow and Gloria's mother.

Nearly a score of witnesses called by the contestants have related details of Burns' eccentric conduct preceding and subsequent to his marriage to Mrs. Swanson. According to their testimony Burns' action during his later years were decidedly peculiar on many occasions, his chief obsessions being an intense admiration for Mrs. Swanson, and his exaggerated pride in his wealth and supposed power over women.

At one time, according to the testimony of E. H. McBride, male nurse who attended him, Burns labored under the delusion that he was married to Gloria, and never lost an opportunity to expatiate on her beauty, attractiveness and talent as an actress.

"I know the Swansons are family money," Burns once told his family according to Mildred Haight, waitress. "Miss Swanson doesn't want to break up our affair. Whenever I mention it she puts her arms around me and says 'Oh, don't leave.'"

### Alleged Leader of \$2,000,000 Postal Truck Bandit Gang

CHARLES HEINS

Who, according to New York police, is the brains of the gang of daring bandits who made a \$2,000,000 haul from a New York postoffice truck last fall. Police suspect Heins of being the leader of a nationwide bandit gang. He is highly educated and passes as a man of distinction.

Labor Board Chief In New Move to Bring About Settlement

CHICAGO, July 13.—"The situation for the settlement of the shopmen's strike looks brighter," Chairman Ben W. Hooper of the United States railroad labor board, declared after a conference with several rail executives here today. Hooper was smiling and admitted he felt greatly encouraged. "I have no announcement to make as yet," he said. "I may have something to say later this afternoon."

WASHINGTON, July 13.—The federal government will send troops into any region where state authorities are unable to maintain law and order and afford protection for the operation of mail trains, Secretary of War Weeks announced today. Orders went from Weeks to Major General John A. L. Hines, commander of the eighth corps area at San Antonio, Tex., to prepare a sufficient force of regular army men for despatch to Denison, Tex., in the event state authorities cannot afford sufficient protection to trains there.

OROVILLE, Cal., July 13.—Fifty men, carrying pistols, rifles, shotguns and clubs early today surrounded the Western Pacific shops here and after a battle in which 200 shots were fired, over-powered the shops guards and rushed into the plant, roughly handling a large force of strike breakers. Five of the workers were seriously injured.

No damage was done to the plant other than that sustained from flying bullets.

Moving on the shops in automobiles, the raiders parked their cars around the plant. The eight guards, discovering themselves greatly outnumbered, soon surrendered, and the invaders swept into the shops where they clashed with a crew of strike breakers that had been paid to work yesterday.

Railroad officials believe the raid was the union's answer to the employment of strike breakers.

Some of the strike breakers were asleep when the raiders entered the shop grounds. Several of these men were severely beaten in their beds. Yardmaster Tom Wilkinson was struck on the head with a large rock as he slept and knocked unconscious. Three shots were fired at A. T. Andres, chief engineer, but he escaped unhurt.

After satisfying themselves that they had administered sufficient punishment to the strike breakers, the members withdrew as quickly as they came.

Check up during the forenoon by Sheriff Webber disclosed residents who were awakened by the motor mob as it left town headed for Sacramento. The fact that none of the rioters were recognized and that

### CLAIMS SUCCESS FOR COAL STRIKE PARLEY

(United Press Leased Wire)

WASHINGTON, July 13.—Secretary of Labor Davis today predicted success of President Harding's efforts to end the coal strike.

In a letter to Thomas D. Mul-lin of Pittsburgh, the secretary said:

"Personally I feel very optimistic and certain that the crisis has been reached, and the firm stand taken by the president before any suffering has occurred will insure that the operation of the mines at full capacity will be resumed in the near future."

"The great trouble in the coal industry is that it is over-developed to the extent that there are about 200,000 more men employed than are necessary to mine the coal we need. This means that the mines can produce all we need by working only about half time."

Acceptance by the bituminous operators of President Harding's plan for arbitration of the coal strike was forecast by John Taylor of Kansas City, head of the operators of the Trans-Mississippi group, following a conference with Secretary of Labor Davis.

Although Taylor strongly indicated that the operators would accept, he said that the bituminous mine owners, like those of the anthracite field, would suggest that two arbitration commissions be appointed—one to frame a wage scale and the other from the soft.

Replies of all the operators and the miners will be in President Harding's hands by Monday, it was indicated at the labor department.

### L. A. BEAUTY IS VICTIM IN NEW MURDER CASE

LOS ANGELES, July 13.—Information that may lead to the identification of the man who with blows of a hammer beat a young woman to death here last night was telephoned to police today. An anonymous speaker over the phone informed police he had seen a man whom he could identify in a machine covered with blood. The speaker said he would come at once to the police station.

LOS ANGELES, July 13.—Working on scant evidence police today were trying to identify the body of a young woman found recently murdered yesterday on the road which winds up the hillside from Griffin avenue in the Arroyo Seco on the outskirts of the city.

The young woman had been beaten to death with a hammer and crashed by a huge rock which had afterwards been rolled onto her body.

Marks of automobile wheels showed where a car had turned around and gone down the hill again near the place where the body was found before dark yesterday.

The handle of the hammer was near the body.

The girl was evidently between the ages of 25 and 30, with bobbed hair, and attractively dressed.

Mrs. Fred Weitz and her aged father, driving up the mountain, made the gruesome find late yesterday afternoon and detectives called to the scene believed the dreadful crime had not been committed earlier than 4 o'clock the same day.

Scores of persons visited the undertaking establishment where the body was taken today. Two salesmen of Toliver's store, here, declared they had seen the woman in the store yesterday, but they did not know her name.

No one could be found who saw the car go to the scene of the tragedy.

### 'UNCLE JOE' LEADS ELKS IN PARADE

Famous Congressman is Grand Marshal of Marchers in Atlantic City Convention Feature.

ATLANTIC CITY, N. J., July 13.—"Uncle Joe" Cannon whipped out a big black cigar and a baton to lead the congressional delegation in the annual Elks' parade today. Cannon was honorary grand marshal of the parade, which was the concluding feature of the Elks' convention.

William Wallace Mountain, retiring grand exalted ruler, Theodore Roosevelt and J. Edgar Masters, grand exalted ruler, marched at the head of the parade with the aged congressman.

### ARREST PAIR IN ALLEGED BRIBE PLOT

Head of Italian Firm and Former Detective are Held in Connection With Boze Case.

LOS ANGELES, July 13.—Trapped by an elaborate plot in which a federal prohibition agent is said to have skillfully impersonated a receiver of bribes, Morris Orsatti, president of a large Southern California Italian firm, and J. R. Johnson, formerly a Burns detective are held here today on charges of bribery.

It is understood that Harold Dolley, prohibition agent, arranged actually to set aside a few liquor arrests, and to secure dismissal of others in order to trap the men into giving money for protection. These cases will all be retried, it was announced.

### AGED WOMAN BEATEN TO DEATH BY THUGS

PEORIA, Ill., July 13.—Three robbers today clubbed to death Miss Sue Hattie, 61, and injured her sister, Hattie, at their farm home near here. A nurse who was caring for Hattie escaped to a neighboring farm house and summoned aid.

A posse of farmers combed the surrounding territory for the murderers.

### U. S. AND JAPANESE RATIFY YAP TREATY

WASHINGTON, July 13.—Ratifications of the Yap treaty by the United States and Japan were exchanged at the state department today between Secretary of State Hughes and the Japanese charge d'affaires Saburi. The treaty became effective by the exchange.

Proclamation by the President will be made in the near future.

### COLORADO DRUG FIRM WILL INVADE COAST

DENVER, July 13.—The Scholtz Mutual Drug company announces it has completed a \$700,000 deal by which it will open stores in Los Angeles, Oakland and San Francisco.

This company has fifteen stores in Colorado, and this is its first venture outside the state.

### Offers To Sell Baby To Prolong Life Of Mother

BYESVILLE, Ohio, July 13.—Mrs. Augusta Turner today set the price of her mother love at \$3,000. She offered to sell her one year old baby boy Richard to obtain funds to prolong her mother's life.

The child's grandparent, Mrs. Leon Dubos, physicians said, will die unless she is sent to a sanitarium for treatment which will cost approximately \$3,000.

While awaiting responses to her ad in the "for sale" columns of a Columbus, Ohio, newspaper, baby Richard romped in his baby bed with his "rattle."

"I don't see how I can get along without him," the mother said, "but I'll have to bear it. If he is well taken care of I will have to be satisfied."

### BLAST OF 'DUD' SHELL KILLS 8 CHILDREN

(United Press Leased Wire)

WATERTOWN, N. Y., July 13.—Eight little children, blown to pieces yesterday by explosion of a supposedly "dud" shell, alone knew the secret of what caused the blast, it was decided after official investigation today.

So devastating were the effects of the terrific explosion, which hurled the playing children in fragments hundreds of feet from the scene, that no evidence remained to show how the shell, one of many picked up near the artillery practice grounds, came to go off.

Intense heat, plus a playful blow from a croquet mallet, was adjudged responsible by army officers.

### DEATH TOLL IN EASTERN HEAT WAVE TWELVE

(United Press Leased Wire)

NEW YORK, July 13.—Twelve deaths throughout the East was the toll take by today's sweltering heat.

Pittsburgh casualties were heaviest, five succumbing. Cleveland, Philadelphia and New York each reported two and Columbus, Ohio, one.

Intense humidity added to the discomfort of the hot wave which swept through this section. Prostrations were numerous, fifteen taking place in Philadelphia.

### FEAR PARALYSIS TO INDUSTRY IN STRIKE

WASHINGTON, July 13.—The benumbing effect of two great strikes made itself felt on the nation's transportation system today, according to reports reaching President Harding today.

Trains in large numbers are being withdrawn from service daily, the reports revealed.

The strike of railroad shopmen is responsible for conditions in the East, where lack of fuel, caused by the mine strike, is the chief factor in curtailment of train service in the West.

"Creeping paralysis," according to one official, is in progress. If the same rate of progress is continued for two weeks

### L. A. MAN ENDS LIFE AFTER SHOOTING WIFE

LOS ANGELES, July 13.—After a jealous quarrel at her apartment house early today, Frank A. Weber shot and fatally wounded his wife from whom he had been separated, and then fired four shots into his own brain.

Mrs. Weber today was lying at the receiving hospital and Weber was found dead in the bathroom of the home.

### I Am Truthful Advertising

By GEO. W. LEMONS\*  
Advertising Director Dallas (Tex.) News

I am power.  
I am information.  
I am the voice of business.  
I am the servant of the people.  
I am a builder—a creator—of business.  
I am the eyes of distribution—the trail blazer.

The honest business concern or individual who uses me wisely builds wisely and profitably.

The dishonest one who tries to misuse me soon meets with the scorn of the people—with failure.

For thousands of years I was unknown or misunderstood—an undeveloped asset of the world.

I keep the world informed as to the efforts of Science, Invention, Transportation, Manufacturing and Distribution.

When I speak markets are crowded, foundries belch forth smoke, factory wheels sing the song of creation, mines give up their precious metals, railway trains fly back and forth across the land like shuttles in the loom, ships ply the waters, wholesale and retail stores are busy, the pride of communities is quickened, homes are brightened, hamlets become villages, villages towns and towns cities; ignorance flies, the people become wise buyers and judicious investors in the necessities, comforts and luxuries of life.

Lies, imposters, fakers, self-seekers, vainglorious ones have tried, and at times apparently succeeded, to deceive my readers, but in the end the back-kick destroyed them.

I want to help, to build, to inform, to uplift, to inspire. I am on the side of decency. I fight for the four-square deal always.

I am a binding contract—a solemn covenant—between the maker or seller and the buyer. I am the assurance that all my promises will be lived up to—that those who respond to my appeal will be treated courteously and honestly.

All men and concerns can not apply me in like manner. Some need me in great abundance—some need me in lesser degree. To apply me requires brains and skill and experience and honesty of purpose and ability.

Once the despised, I am now recognized by individuals, by corporations, communities, by cities, by States and by nations. Kings and Emperors and Presidents use me; so do the lowly.

I enter the vine-thatched cottage and the royal palace—and always I am welcomed with open minds.

A little child can read my message and trust me. A strong man can draw strength from me.

I AM TRUTHFUL ADVERTISING.

### WALTER SCHMIDT TO JOIN PIRATE TEAM

MODESTO, July 13.—Walter Schmidt, star catcher, will report to the Pittsburgh Pirates to finish the present season as soon as Judge Landis reinstates him, he announced here today on receipt of a telegram from Manager Bill McKechney of the Pirates agreeing to his price to catch the balance of the season.

Schmidt held out for \$10,000 this spring and Barney Dreyfus refused to allow him the \$2,000 increase.

Schmidt plans to leave Saturday to join the club at Pittsburgh. He has not thrown a ball this year. It will take him about three weeks to get into shape, he said.

BOGUS CHECK CHARGE  
HEARING IS DELAYED

Preliminary examination of L. R. Cain, charged with passing a fraudulent check for \$55.52 on A. W. Davidson, cashier of the First National bank at Newport Beach, today was continued by Justice J. B. Cox to July 19 at 2 p. m. The hearing was originally set for 10 a. m. today.

Delay was granted through stipulation of Deputy District Attorney C. N. Mozley, representing the state, and Attorney Morris Cain, counsel for the defense. It was understood that the prosecution wished to defer the hearing a few days on account of expected "further developments."

## COMMENT

By Chester H. Rowell

(Continued from Page One)

reasons why Europe should have it. It is a just obligation and has been made a legal debt. Europe has a right to collect it. But if Europe does, the economic consequences will follow. Nobody enacted and nobody can repeal those economic laws. They operate of themselves. If you do the things that put down exchange, down it goes, even if you decree that it shall come up. And that collapse in exchange works its consequences on everybody, even those who pass laws and send troops to defy them.

War rights may create anti-economic obligations. They cannot collect them. You may make a stream flow backward only by pumping it backward; not by decree of court. And it will take more power to run the pump than the stream will produce.

NO BACKWARD STEP—One issue at least is now again drawn between progressives and reactionaries. Progressives would preserve the primary system; reactionaries are starting a crusade to destroy it. Let us concede that the primary system has many faults. It is a failure or a misfit as to certain offices. But so is election, as to those offices. Those who ought not to be nominated by the people ought not to be elected by them, either. The remedy for the real evils of the primary is the short ballot. But that remedy is equally needed for the evils of election. And there may be other steps, looking forward, to make the primary better.

But not the proposed backward step, to the convention system. That system was bad enough and irresponsible enough when there were real parties to conduct it. It would be much worse now that the parties are gone and only the machines are left. We shall not go backward to the convention system, nor to anything else that will please those who are now crying for the convention. If we make any change it will be forward, to something which they will like even less than the present primary system.

## TO APPEAL AWARD OF DAMAGES TO OFFICER

Notice of appeal from a superior court decision awarding County Motorcycle Officer O. K. Carr \$1500 damages against the John McFadden company, of Santa Ana, was filed today by the McFadden attorneys, W. I. Gilbert, of Los Angeles, and Scarborough, Forgy and Reinhaus, Santa Ana.

The case was recently tried before a jury in department 1 of the superior court. Judge Z. B. West subsequently denied the defendant's motion for a new trial. Today's notice stated that the case would be carried to the state supreme court.

Carr brought suit, originally, for \$5,000 damages, alleging that he sustained a broken leg and the loss of his motorcycle in a collision with the defendant's car, operated by a McFadden employee, George Shoebridge. District Attorney A. P. Nelson represented Carr in the action.

BATHING BEAUTIES FIND H. B.  
IDEAL SPOT FOR SURF SPORTS

The "Splash-me" girls in the picture are the Misses Grace Wood, Ray Lindsay, Thelma Gates and Margaret Glazier. They are regarded by Huntington Beach folk as examples of the benefits of frequent dips in the surf at the beach oil city.

A thriving, bustling business community, a center where 25,000 barrels of oil are produced each week and a place where girl bathing beauties of unmatched face and figure are wont to disport themselves in the surf of the Pacific.

These, proud Huntington Beach

residents declare, are a few attractions at the seaside resort.

And the Misses Grace Wood, Ray Lindsay, Thelma Gates and Margaret Glazier, are regarded by prominent Huntington Beach critics as being among the chief assets in the face and figure department.

These four young women are represented in the picture herewith. The automobile won the prize for the most delapidated-looking Ford in the recent Orange Rodeo.

CATHOLIC BLOCK  
SUGGESTED FOR  
CITY PARK

A \$5,000 present to the city of Santa Ana.

That is what the Rev. Father Henry Eummelen, pastor of St. Joseph's Catholic church here, stands ready to give.

He announced today that in the event the city through a bond issue should be enabled to purchase for municipal park purposes the block of property on Lacy street which the church owns, it probably could be arranged with his parishioners to deduct \$5,000 from the price at which the property has been tentatively placed on the market.

Would Deduct Fees  
In addition, the pastor said, the usual commissions could be deducted, thus affecting a further saving to the city.

Whereas the block, which is bounded by Lacy, Vance and Garfield streets and Wellington avenue, has been offered to the members of the congregation in sixteen lots, priced at \$2,200 each, final sale of the entire property is made conditional upon all the lots being spoken for before the expiration of a certain period. This period will expire before one week from Sunday.

Says Park Needed  
"Instead of the lots being sold," said the Rev. Father Eummelen, "I should much prefer that the city acquire the block as a whole and use it for park purposes. 'I am certain that all the property owners nearby would be in favor of the plan. That section of the city has no park. It needs one. There is no doubt that my congregation would agree to the sale of the block for a municipal park.'"

IMPROVEMENT BODY  
MEETS TOMORROW

The public improvement committee of the chamber of commerce will meet at the city hall tomorrow at 9 a. m. to discuss important matters in connection with city improvement here, it was announced today.

Clarence Gustlin, chairman of the committee said that one of the matters to be brought up would be the discussion of the proposal of an ordinance providing that there should be a uniform distance at which residences should be set back from the street.

There has been considerable agitation along this line from different citizens, Gustlin said, and the committee will give first attention to this subject.

The members of the committee beside Gustlin are Rolla Hayes, Charles Kendall, F. W. Slabaugh and C. L. Davis.

DEBS UNDER CARE OF  
CHICAGO PHYSICIANS

CHICAGO, July 13.—Eugene V. Debs, national Socialist leader, arrived here today to enter a sanitarium for treatment for heart trouble.

Debs has been seriously afflicted since his release from Atlanta prison last Christmas, where he was pardoned after serving a term for violation of the espionage act.

Debs has been advised that his only hope of cure is absolute quiet and rest.

4000 STRIKE SYMPHIZERS  
STORM MICHIGAN PLANT.

DETROIT, Mich., July 13.—United States Marshal Frank T. Newton on his return from the strike trouble center at Saginaw, Mich., where four thousand striking shopmen and sympathizers stormed the Pere Marquette round house and strikers broke into several houses and others driven away, today wired Attorney General Daugherty at Washington for authority to call out the United States troops.

Newton stated in his wire that it was his belief that sufficient special deputies were not available at Saginaw in event of any further trouble.

The marshal's office stated here today that the word had been received from the trouble center that all was quiet today.

STRIKE BREAKERS KIDNAPED  
AND BEATEN BY MOB.

DENISON, Tex., July 13.—Rioting was resumed here today when two additional strike breakers were kidnapped by a mob and beaten.

Twelve strike breakers kidnapped and beaten by a mob here yesterday were still missing today. Five other victims of the mob were being treated in hospitals.

Pickets continued today at all entrances to shops here. In spite of a downpour of rain, wives of many pickets also were on duty.

FEAR SYMPATHY STRIKE  
BY M. OF R. WORKERS

DETROIT, Mich., July 13.—National headquarters of maintenance of way rail employees today struggled to keep the maintenance men from staging an outlay strike.

Unless differences caused by the shopmen's strike are settled immediately, local leaders of maintenance of way men will be unable to check the tide for a walk-out, according to more than 100 telegrams received from district and other chairmen.

The break threatens "within a few hours," the leaders wired. Most of the trouble is caused by men refusing to work under guard of United States marshals and owing to the absence of E. F. Grable, president of the union, work of adjusting these differences is progressing slowly.

R. H. W. Rolls, oil worker employed in the Santa Ana canyon, was brought to the county jail this afternoon, charged with assault with a deadly weapon upon R. S. Young. Young accused Rolls of firing a shot at him from a 22 caliber rifle. The shot missed. Young summoned officers and Deputy Sheriffs Zabel, Fowler and Maynard responded, placing Rolls under arrest.

Rolls declared he shot to frighten Young, whom he accused of exposing himself indecently near the tent house where Rolls lives with his family.

SOLONS TO ATTEND  
BIG NORTHERN MEET

Attention of the board of supervisors was directed today to the annual convention of the County Supervisors association of the State of California, which will take place July 26, 27 and 28 at Eureka, county seat of Humboldt county.

Supervisor Stanley Abel, of Kern county, secretary of the association, reminded the Orange county board of the approaching gathering in a letter received by County Clerk J. M. Backs.

At least four and possibly all of the five Orange county supervisors will attend the convention, it was stated today. Chairman T. B. Talbert, N. T. Edwards and Howard Wassum expect to make the trip to the redwood metropolis by motor, accompanied by their families. Wassum plans to extend the trip to other points and enjoy a vacation outing. Col. S. H. Finley expects to make the trip by train. Supervisor William Schumacher has not made known his plans with respect to attending the convention, it was said.

Your plumbing is a subject of vital importance and householders are in a constant state of worry over boilers, sinks, pipes, faucets, etc. Plumbing—and proper plumbing at that—is our special business, and we guarantee every job we undertake, whether it be the construction of new plumbing systems or the repairs of old ones.

To Orange County  
Furniture Buyers:

Our Employees during ten months of the year stand loyally by this store six days in the week, and irrespective of what any other furniture store may do, we are going to reward them for their loyalty and efficiency.

"All Work and No Play Makes Jack a Dull Boy." In order that our employees may have a chance to play, the Spurgeon Furniture Company's Store will close at noon every Saturday during July and August.

We feel sure that our patrons and friends will approve this attempt on our part to show our appreciation to these men and women who have helped make this store a success.

If you want to find the employees of the Spurgeon Furniture Store on Saturday afternoons, you will have to search the beach and mountain resorts, as they will be out storing up energy for activities of the coming season.

We want to say to our patrons that we have plans for a bigger, better and more efficient store. A complete announcement will follow later.

A Widely Known  
Rupture Expert

Will Hold  
Free Consultations at  
The White Cross

Thurs. Fri. and Sat.,  
9 A. M. to 6 P. M.

Another movement by the White Cross to make it unnecessary for rupture sufferers to depend on mail order advice and fittings, which so frequently result in misfits and unsatisfactory adjustments. This man has had experience in relieving every kind of rupture case known—he believes, as we do, in INDIVIDUAL fittings and advice, suited to each case. You are welcome to take advantage of his services at the White Cross Thursday, Friday and Saturday.

Trusses, Abdominal Belts and  
Surgical Supplies of Every Kind

The White Cross has enlarged its Surgical Supplies department until every reliable appliance known is available. For men inclined to obesity, the Fifth Avenue Abdominal Belt is considered among the best. In trusses, the

Radio-Active Truss is probably creating as much interest as any, although we carry other kinds preferred by many or perhaps suited best to their cases. The White Cross stands back of these products with a most binding guarantee.

## Today's Word

Today's word is **UBIQUITY**. It's pronounced u-bik-wi-ty, the accent falling on the second syllable. The u is as the u in unite; all other vowels are short.

It means—presence in more than one place, or in an indefinite number of places at the same time; presence everywhere.

It comes from the Latin ubique, meaning everywhere (from ubi, where.)

It's used like this: "Escape was made impossible by the ubiquity of the police."

## City and County

J. F. Richards this morning took a permit for the erection of a \$6000 residence at 601 East Walnut street. This permit brought the total for July to \$116,270.

Mayor J. G. Mitchell today announced that he was arranging for a special meeting of the city council to be held in the immediate future at which the officials will discuss the city planning scheme as explained at a meeting at the city hall Tuesday night by Dr. Carl Aronovich. It was believed that Dr. Aronovich will be present at the meeting of the councilmen to answer questions and explain parts of his plan.

W. E. Adkinson, county fish and game warden, advises all those planning to hike to the top of Santiago Peak (Saddleback), to take the new trail from the head of Holy Jim canyon. Cars can be driven to a point above the tin mines from which the trail can be reached by a short walk. The new trail is eight miles long and much better than the old one, Adkinson said.

E. C. Fuqua will lecture on "Divine Healing" at the tent on the corner of Second street and Broadway, tonight at 7:30 o'clock. It was announced today.

Mr. and Mrs. T. L. Hunter at 4 p. m. tomorrow will formally open their new Raven cafe at Laguna Beach. It was learned here today.

The condition of Miss Vivian Burge, 14, who accidentally shot herself here last Sunday, was greatly improved today, according to attendants at the Community hospital. Miss Burge spent a comfortable night. It was said, and was much stronger this morning.

A card received by A. T. Armstrong from E. B. Smith, J. J. Zellian and Will Armstrong, all of this city, announced the departure of the men with their families from Yellowstone park July 7 for Vancouver, B. C. The party left here two weeks ago by automobile for a tour to Yellowstone and Canada.

Spanish War veterans will hold a get-together meeting at the American Legion home, on Birch street, at 8 o'clock tomorrow evening, according to an announcement made today by Major J. Carl Shindler. Major Shindler, who was a member of the Fourth Ohio volunteer infantry, and R. D. Mears, of the 49th Iowa volunteer infantry, will provide the entertainment for the evening. Mayor John G. Mitchell and the two men named today urged all Spanish War veterans to be present.

Fire starting from a threshing outfit yesterday threatened to spread over the pastures of the O'Neill ranches in the Trabuco section. About seventy men under William Magee, of the O'Neill ranch, fought the flames which covered a few acres of grass and stubble before they were extinguished.

P. S. Lucas, secretary of the Merchants' and Manufacturers' association, who has been seriously ill since May 20, will not be able to resume his duties until September 1, it was learned here today. Lucas, who underwent treatment at the Anaheim sanitarium, is now at Oak Glen lodge, in the San Bernardino mountains.

W. H. Aitken, chairman of the law and legislation committee of the California Real Estate association, will be the speaker at the meeting of the Santa Ana Realty board at St. Ann's Inn at 12:15 p. m. tomorrow. It was announced today by J. C. Wallace, secretary. Aitken will discuss law and legislation as pertaining to the real estate business.

G. W. Knox, city engineer of Santa Ana, and O. E. Steward, city

engineer and city manager of Anaheim, today were making arrangements to leave next Tuesday for St. Louis, Mo., where they will investigate the Ferguson block method of manufacturing vitrified pipe for sewer use. The officials will secure data on which to base recommendations to the Santa Ana and Anaheim city councils as to the type of pipe to be used in constructing the joint outfall sewer.

## LAYS DEFENSE PLANS

Justice J. B. Cox having held E. C. Woodruff, Long Beach, to answer in the superior court on a charge of driving an automobile while under the influence of intoxicating liquor, Attorney A. E. Koepsel, for the defense, was laying plans today for convincing the higher court that a jug carried in Woodruff's car at the time of his arrest contained no liquid having more "authority" than soft cider. Woodruff was at liberty under \$1,000 bail, following his preliminary hearing late yesterday.

## Market Report

### WALL ST. JOURNAL FINANCIAL REVIEW

NEW YORK, July 13.—Prices among the more speculative stocks, especially in the oil group, broke rather sharply as the result of unfavorable turn of affairs in the railroad strike situation and the feeling in professional circles that the season of the year was not conducive to a sustained rise in prices.

Uncertainty in the trade outlook were employed by the bear crowd to bring about a reaction in oil stocks with the consequence that some of the volatile issues of the Mexican group suffered substantial losses while the shares of American companies, particularly Standard of California, Standard of New Jersey and Sinclair, were subjected to steady selling pressure.

The market closed lower. Closing prices: U. S. Steel, 99 7/8, off 7/8; Crucible, 74 1/2, up 1/4; Republic, 71, off 1/8; Baldwin, 115 1/2, off 3/4; American Locomotive, 122 1/2, off 1/2; Pan American, 30 3/8, off 2 5/8; Standard Oil of California, 103 1/4, off 1/2; Texas Company, 46 1/4, off 5/8; Asphalt, 68 3/8, off 3/4; Sinclair, 32 1/4, off 5/8; Studebaker, 130, off 1/8; U. CHICAGO CASH GRAIN  
CHICAGO, July 13.—Cash wheat: No. 2 red 116 3/4; No. 3 red, 116 1/4; No. 2 hard, 118 3/4.

CHICAGO BOARD OF TRADE  
CHICAGO, July 13.—Grain prices closed higher on the Chicago Board of Trade today. Wheat showed strengthening on buying of seaboard shorts and advanced prices on the Liverpool market. More than 1,000,000 bushels of wheat and 500,000 bushels of corn were sold.

Chicago wheat futures advanced on reports of black rust in the Northwest came from several agents of local traders and added to the bullish sentiment of the day. The market responded to some bearish influences and advanced to some extent near yesterday's levels. Oats showed a decrease in receipts and followed wheat on the advances. Provisions were lower.

SAN FRANCISCO MARKETS  
SAN FRANCISCO, July 13.—Dealers generally reported trading in fruit and vegetables as being very light. The weather is not favorable to consumption of cantaloupes and watermelons and although receipts were not heavy the market was weak and draggy. Receipts of tomatoes are increasing and with only moderate demand prices were forced downward. Flat prices on number one quality sold from 65 to 75 cents while lugs were bringing \$1.25 to \$1.50. Number 2 grades sold for less.

With decrease in receipts of asparagus there is corresponding increase in price. Receipts of Grass Valley totaled 547 boxes. Demand continues fairly good.

According to the shippers of oranges, consumers will have to pay higher prices for this fruit. Prices at shipping point have advanced to \$8 on the most desirable sizes, while wholesalers are attempting to obtain \$10.50 for largest fancy oranges. Lemons were weak and 25 lower.

On the poultry market Leghorn hens and broilers are weak and the former declined 2 cents a pound.

Supplies Light: Pineapples, currants, grapefruit, oranges, apples, good celery, artichokes, cabbage, peppers, asparagus, spinach, peas, lettuce, summer squash.

It Will Be Much To Your Advantage To Attend Our

# End of SEASONS SALE

This phenomenal season end Clearance event is doubly welcome! To effect a thorough and rapid clearance, we have reduced prices regardlessly—involving merchandise that in all respects measures up to the high Smart Shop standard.

Spurgeon Bldg.—Santa Ana—Spurgeon Bldg.

The importance of securing first choice of stocks that are up to the last tick of fashion while those stocks are still at their best is not to be underestimated. Wonderful assortments are no less attractive than wonderful values. In a sale which has been so resolutely planned to move the merchandise rather than carry it over into next season, you're bound to find cuts in prices fairly startling on many of the very articles you need right now and would otherwise purchase at the regular prices.

To shrewd buyers who know how this house has been underselling. If our merchandise was "a good buy" at our regular prices, you can realize the wonderful savings at these prices.

## BARE FAVORABLE REPORT AS TO BEAN PRICES

That Lima bean growers of the San Joaquin association will net 6 1/2 cents per pound for their product just marketed, getting approximately 3-4 of a cent per pound more than growers in other bean marketing organizations will receive, was the reassuring word issued today by W. C. Jerome, the local association's representative on the directorate of the state organization.

Jerome, who expects to attend tomorrow a meeting of the California Lima Bean Growers' association directors at the Ventura county courthouse, where a future financial policy will be under discussion, made public statistics received in a detailed report from R. L. Churchill, of Oxnard, general manager of the state association.

Prosperity Disclosed  
This shows the association generally, and particularly the local branch of it, to be in a satisfying condition of prosperity at the end of this, its sixth season.

While auditors of the association are now compiling exact statistics on distribution, which are expected to be available by August 1, the general manager's report stated that the average f.o.b. returns will be \$6.47 per hundred pounds from which must be deducted 37 cents per cwt. to cover marketing expense.

This a return of \$6.10 per cwt. would be received by the local association, which would, according to Jerome, show a net return to the growers of \$6.05 per hundred pounds, after deducting expenses of the local association.

Tell Selling Prices  
Selling prices during the season ranged from \$5.65 for limas and \$4.35 for baby limas to as high as \$9.25 for both varieties, the report stated.

The crop in the state amounted to only about 700,000 bags, little more than half of a normal crop, according to the report. Association growers produced between 40 and 50 per cent of the regular limas and over 60 per cent of the baby limas. Cleaning losses and seed reservations brought down the total crop marketed to about 247,000 bags of regular and 79,100 bags of baby limas. Drouth was held responsible for the small crop.

A more comprehensive financial plan is being sought by the California Lima Bean Growers' association, Jerome stated today in discussing tomorrow's proposed meeting at Ventura. The directors are meeting, he said, to work out some such plan.

## EUROPEAN CHAMPION CHALLENGES JOHNNY KILBANE FOR FIGHT

The Buaro Oil company is to be the name of the concern that will undertake to open a new oil field immediately west of Santa Ana, according to announcement today of a resident of the territory in which leases have been secured.

Fourteen property owners have signed leases covering about 400 acres. It is understood that leases on other property are desired and that an effort is now being made to procure them before drilling operations are begun. The signed leases have been turned over to the company, which was recently organized and for which articles of incorporation have been prepared. It is reported that the company is financed and that operation is not contingent on stock subscriptions by local residents.

It is said that residents of the Buaro district are confident of the success of the oil venture. Different geologists recently declared that an oil strata runs through the section.

## HUNDREDS TO HEAR ORCHESTRA CONCERT

Hundreds of Santa Anans today looked forward with keen pleasure to the concert that the C. C. Langley orchestra is to give tonight at 7:45 o'clock at Birch park.

The complete program follows:  
March, "The Olympiad" (Arthur); overture, "Light Cavalry" (Suppe); entre acte, "Spring Dreams" (King); "Duna" (Pickthall-McGill) and "Somewhere a Voice is Calling" (Tate), by Miss Holly Lash, vocal soloist; overture, "Sounds from the Sunny South" (Isenman); suite in four parts, "Atlantis the Lost Continent"; "Nocturne and Morning Hymn of Praise"; "A Court Function"; "I Love Thee"; "The Destruction of Atlantis" (V. F. Safrank); "Serenade" (J. Tittl); "Star Spangled Banner."

### Here Are Heroes of Yesterday's Games

**YESTERDAY'S HERO**—Shucks Pruett, rookie pitcher, fanned Babe Ruth three times—once with two and once with the sacks filled. The Browns beat the Yanks, 7 to 4, with an eighth inning rally that scored four runs.

Rogers Hornsby hit his 23rd home run but the Cards dropped a double header to the Phils, 8 to 2 and 3 to 2. Pitcher Ring won his own game in the second with a home run.

Fred Toney had a big day and outpitched Alexander the Great, the Giants trimming the Cubs, 5 to 1.

The Robins made it seven defeats in the first seven games of their western trip when they were downed by the Reds, 4 to 1.

Hellman hit his 14th homer in the ninth inning with two on bases and the Tigers beat the Athletics, 7 to 3. Cobb hit five times in five times up.

Coveleskie lobbed the ball over in the ninth inning and made the Red Sox a gift of six runs, the Indians winning 11 to 7.

Mostli hit a single, double and a triple and scored three runs, helping the White Sox beat the Senators, 4 to 1.

"Serves You Right"—James Confectioner.

## COLLEGE MEN IN STEAK BAKE AT COUNTY PARK

Stanford men from all over the county with a number of graduates of Orange county high schools as guests, enjoyed a steak dinner at the county park last evening. M. K. Duffey, of Santa Ana, cooked and served the meal, which included steaks, potatoes, Spanish beans, corn on the cob, salad and watermelon.

Sheriff William I. Traeger, Ralph Reynolds, manager of the Automobile Club of Southern California, and fifteen or twenty other Los Angeles Stanford men were on hand. Following the dinner, the men gathered around the piano in the pavilion, where college songs were sung.

**Plan Other Meets**  
The affair was the first of what is planned shall be a series of meetings of Stanford men. The gathering was arranged by Stanley J. Goode, president of the Stanford club of Orange county, and Z. B. West Jr., chairman of the club's entertainment committee.

Among those present were Sheriff Traeger of Los Angeles, Ralph J. McFadden, of Anaheim, candidate for sheriff of Orange county, William Magee of San Juan Capistrano, and Attorney Thomas L. McFadden of Anaheim, who played football together at Stanford some twenty years ago. Traeger and Ralph McFadden, who were tackles on the same team, bantered each other on their respective physiques. Traeger confessed to weighing 258 pounds and McFadden to 249 pounds.

**Star Athlete Present**  
Glenn Hartranft, of Fullerton, Stanford's intercollegiate champion in the shotput and discus events, and one of the best known college athletes in the world, was among those at the park.

Stanford men present included S. J. Goode, Maurice Enderle, G. K. Scovel, Elmer T. Worthy, Frank West, T. E. Stephenson, Z. B. West Jr., George R. Wells, George Baker, Eugene Trago, Kenneth Van Slyck, Horace Allison, Milburn Harvey, all of Santa Ana, T. L. and R. J. McFadden, Anaheim; James Tuffrey, Warren Bradford, Placentia; Harry Shipke, Glenn Hartranft, Fullerton; Guests included "Jeff" Cravath, Newt Stark, Lynn Crawford, Knox Finley, John Spangler, Bart Cook, Wayne Clark, Santa Ana; Salter, Earl, Mieser, Hawkins, Fullerton.

## JOHNSON'S RACE WELL RECEIVED IN COUNTY

That the sentiment in favor of the candidacy of Senator Hiram Johnson is very strong in Santa Ana and that he will receive an overwhelming vote here in the coming election, was the opinion expressed today by John N. Anderson.

Anderson bases his opinion on the expressions of voters made while he circulated Johnson's nomination petition. In circulating the papers Anderson had opportunity to test the sentiment of the voters, he said.

"I took the petition to the Republicans, regardless of factions, and not more than fifteen per cent of those approached declined to sign," said Anderson.

"The enthusiasm with which signers in general accepted the petition impressed me. Nearly all of those who declined were indifferent rather than actively inimical to Johnson."

**Senate Record Admired**  
"Probably half of those who signed the petition were voters who have become enthusiastic supporters of Senator Johnson because of his admirable record in the United States Senate."

"I didn't find one voter who refused to sign Johnson's petition because of his international attitude. Some of the signers told me that in the past they had opposed him but were for him now."

Anderson said that he had been advised that a condition similar to that in Santa Ana had been found in all parts of Southern California by those who circulated Johnson's petitions.

There were 250 signers to Johnson's petition in this county. The verification deputies were J. N. Anderson, Santa Ana, and John Allen, Orange. Those in charge of having Johnson's petition circulated put a limit on the number to be sought here.

**Urges Big Attendance**  
D. Eymann Huff, manager of the Hewes Realty company and prominently identified with citrus culture activities in Orange county, today declared that citizens of the county should turn out en masse to hear Johnson in addresses in the county, probably August 1.

H. Z. Evans, of the Johnson headquarters in Los Angeles, was here yesterday arranging for the senator to deliver addresses on or about that date.

Evans said the Senator probably would speak at Santa Ana, Anaheim and Fullerton. Johnson is due to arrive in Los Angeles July 28.

## CLAIM BONDE YOUTH, GIRL STOLE MACHINE

Warning to watch for a tall, blonde youth and a short, blonde girl, had been received today by the local police from D. E. Estabrook, of Whittier, who reported that the youth, accompanied by the girl, took Estabrook's automobile from Whittier shortly after midnight last night.

The names of the couple were not mentioned. The youth was described as 6 feet 2 inches tall and as wearing a dark blue suit and straw hat.

## DIVORCE SUIT FILED ON DESERTION CHARGE

Charging that his wife deserted him, Harry E. Cook had filed suit in the superior court today for divorce from Carrie E. Cook.

The Cooks were married July 26, 1920, at Garden Grove, and the alleged desertion was said to have taken place January 14, 1921. The couple has a daughter 14 months old.

## Ruth Yesterday and a Year Ago

1921—Thirty-third and thirty-fourth homer and a double in five times up against the Browns.

1922—Tapped to the box. Fanned with two on. Fanned. Fanned with the bases loaded. Doubled to center and scored on Meusel's long single.

## Did You Get the Bottom Price, After All?

The man who buys a "long discount" tire usually finds himself troubled by the above question.

Did he pay less for the tire than his neighbor might have paid, or actually did he pay more?

Did he get the bottom price, when all is said and done, or could he perhaps have driven a sharper bargain?

Was the net price really more than he might have had to pay for a tire of established reputation and value?

In the belief that the average motorist prefers a frank and open transaction, we built the new Goodyear Cross-Rib Tread Cord and discounted the "discount" in advance.

Instead of listing it at a high price, to enable the dealer to attract you with a so-called "long discount," we list it as low as we profitably can.

We build it of high-grade long-staple cotton, using the patented Goodyear method of group-ply construction, and sell it at a lower price than you are asked to pay for many "long discount" tires of unknown worth.

If you want a quality tire, and a reliable value, call today on any of the Goodyear Service Station Dealers listed here.

Compare these prices with NET prices you are asked to pay for "long discount" tires

## CITY MOVES FORWARD TOWARD 32,000 POPULATION IN 5 YEARS

## YEAR BUILDING MARK TO PASS \$3,000,000 IS BELIEF

May Smash 1921 Total This Month as \$85,000 Work Issued In One Day

## TO BEGIN NEW LAUNDRY

Southern Service Company Plant to Be Modern In Every Respect

A 1922 building total for Santa Ana that will pass the \$3,000,000 mark in value of permits issued as a probability here today.

At the same time it became apparent that the city would pass the 1921 record of \$2,058,000 before the end of the present month.

Permits issued up to today totaled \$1,964,460.

With the announcement of work in the business section to begin immediately at a cost of \$35,000, and with Contractor T. H. Fowler preparing to proceed with building operations on the new laundry structure for the Southern Service company at the corner of Spurgeon and Second streets at a cost of \$47,487, prosperity boosters were jubilant.

Opinion was expressed freely that additional building work planned and due to come from the natural expansion of the city would swell the figures during the rest of the year over the \$3,000,000 mark.

## Begin Work Soon.

Excavation work on the new laundry plant will begin within two weeks, Fowler, who today made public additional plans, declared.

The building, which will be modern and up-to-date in every respect, will have a frontage of 119 feet on Spurgeon street and 190 feet on Second street. The main entrance and all rooms will be situated on Spurgeon street.

The structure will be of select red

## Frontage of City's New Buildings Would Stretch to Costa Mesa

If all the buildings erected in Santa Ana during the fiscal year ending June 30, 1922, were placed side by side in a straight line they would stretch out for a distance of approximately seven miles.

They would reach almost to Costa Mesa on the south and from the north city limits of Santa Ana to Anaheim on the north.

These figures became known here today when statistics compiled from the records of Building Inspector W. S. Decker disclosed that the frontage of new buildings constructed here in the period was about 35,000 feet.

The total frontage of buildings erected since January 1 was 21,286 feet.

## PLAN TO OPEN NEW S. A. CLEANING SHOP AFTER \$2000 FIRE

A little thing like a fire that resulted in a loss of \$2000 when their cleaning plant on Wellington avenue was destroyed recently didn't diminish the faith of Vic Baird and H. F. Roberts in the future of Santa Ana.

That was learned here today when Baird and Roberts, who were formerly connected with the Sutorium, announced that the first of next week they would open a new modern dry cleaning office at 193 West Fifth street.

Their plant will be located at 209 Garfield street.

## LNER MAKES RECORD FOR RADIO TELEPHONE

NEW YORK, July 13.—A new record for wireless telephone conversation is said to have been set by the Scandinavian-American liner United States, which arrived from Copenhagen.

Captain Oscar Schmidt declared he talked to officers of the Frederick VIII of the same line, when the ships were 500 miles apart at sea. Schmidt said his vessel was in radio telegraphic communication with Copenhagen until it neared the United States coast.

## PLAN ADDITIONS TO KEYSTONE APARTMENTS

Improvements to Structure at Sixth and Main to Cost \$20,000

Improvements costing approximately \$20,000 will be made in the Keystone apartments at the northeast corner of Main and Sixth streets, with the work beginning within two weeks, according to an announcement made today by Harry M. Smith and James Frew, owners of the property.

Plans being drawn by W. W. Kays, architect, are nearly completed and will be available for contractors to estimate the cost of the work in the next few days, Smith said.

Plan New Store Front. The owners recently did extensive remodeling work on the ground floor corner store room. The new work will provide a modern front at 603 North Main street and arrange the second floor into six small apartments. A two-story addition to the rear of the building will be another feature. This will be 45 by 50 feet.

The exterior of the whole building will be plastered.

J. D. Parsons, owner of the frame store building at 414 West Fourth street today announced that the old structure is for sale, to be wrecked or moved.

Will Build Structure. The announcement indicates that Parsons expects to begin work on the construction of a modern two-story business structure, adjoining his other property, the upper floor of which is known as the Parsons apartments.

Architect Kays is drawing plans for the new building and it is possible these will be ready so that construction work may begin within three or four weeks.

Parsons said that the second story of the new structure would be devoted to apartments.

## STATE REALTORS PLAN FOR BIG MEET HERE

Realty Boards all over the state are already making preparations to send representatives to Santa Ana December 8 when the annual convention of the California Real Estate association will open, according to word received here today from Glenn D. Willaman, secretary of the organization.

Incidentally, it was learned that keen interest is being manifested in the five-minute home town talk contest for the president's cup which was instituted for the first time last year Fred E. Reed of Oakland.

Beach Man Wins. The award was annexed at that time by Henry P. Barbour, president of the Long Beach Realty Board.

Freeman H. Bloodgood, president of the local board, who spoke on the assets of Santa Ana, was third out of an entry list of twenty-one.

"With eighty realty boards eligible for the competition this year," C. C. Tatum, president of the state association, recently declared, "we expect an entry list of at least thirty in the Santa Ana contest."

New Contest Planned. An achievement contest also will be a part of the big convocation. Local board secretaries may compete in this affair for the trophy offered by the state association's magazine.

"Achievement consists in presenting or reviewing the board's work during the past year, and its plans for the future."

The prize was carried off last year by J. W. Macauley, secretary of the San Jose Board.

## PLAN TO STABILIZE REAL ESTATE WORK

F. C. Pope, treasurer of the Santa Ana Realty board, today had in his possession copies of standard forms of exclusive authorization to sell and deposit receipts which the state association proposes to adopt in an effort to standardize and stabilize the real estate business along sound lines.

The forms are being submitted to various dealers throughout the state for approval or suggestions as to changes. Standard forms for deeds, mortgages and deeds of trust also are being prepared by the association, with the assistance of the State Records' association, the bankers and title and trust companies, Pope says.

## CITY SEA MARCH GIVEN IMPETUS BY NEW TRACT

The steady offensive "in Santa Ana's building march to the sea" today was headed at a new objective.

Adding impetus to the rush for property in or near the city, officials connected with the new Santa Ana Heights subdivision at Costa Mesa announced that many lots and acreage tracts have been sold in the plot despite the fact that little or no effort had so far been made to carry out proposed improvements.

The sale of lots is in charge of William McCoy, former Santa Ana and now connected with the Los Angeles firm of Bryan, Bradford and McCoy which recently purchased 775 acres from the Irvine ranch for the subdivision.

McCoy is a son of the late Dr. J. C. McCoy, former Santa Ana and Orange dentist.

Plan Water System. "When the grain now growing on the property is harvested," McCoy said, "pipes for the water system will be installed and other streets will be laid out. Sidewalk and curbs will be laid along the boulevard front for a distance of a mile and a half. A fine water well already has been developed.

"When the remainder of the property is subdivided another well will be sunk to supply the tract. The water will be under pressure, being pumped into large tanks that will be located on high points.

"Lots fronting on the boulevard will have building restrictions, preventing the construction of houses costing less than \$2000 each. Lots on the corner of Wilson street and the boulevard have been reserved for business enterprises, which will be limited and which will be designed to be of service to residents on the tract. A big market is expected to be one of the features of the business community.

## MOUNTAIN LOT SALE DRAWS MANY BUYERS

A number of Santa Ana residents have bought lots in Cedar Pine park, in the San Bernardino mountains, according to W. J. Penningroth, sales manager in Orange county for Anlof, Borchert and Houlette, who have subdivided a large acreage on the "Rim of the World."

Penningroth is located at 413 North Main street.

Included among Santa Anans purchasing lots are E. J. Barger, J. M. Beach, Miss E. M. Blanehardt, H. R. Hill, Theo. K. Hill, J. G. Limbird, M. Pittman, James S. Sweet, L. G. Sweet, Jack Olivari and Dr. C. V. Doty.

The sales manager said today that he was completing plans for taking a group of Santa Anans to the site next Sunday. A tract of 765 acres has been subdivided into 3,200 lots.

According to Penningroth, a large number of summer residences already are under construction. Pure mountain water is available.

Penningroth says there seems to be a misconception as to the price of lots. Some have the impression that \$25 is only a first payment. He says this is the total cost of a lot.

## PERMITS FOR 353 HOMES, APARTMENTS ISSUED HERE AS ALL RECORDS SMASHED

Moving forward on the crest of the greatest prosperity wave in the history of the city, Santa Ana is maintaining a building program which, if carried on during the next five years, will give the community a population of 32,000 persons in 1927.

Similar estimates give the city a population of 36,000 when the government census is taken in 1930.

These figures are based on the generally accepted belief that Santa Ana now has a population of 22,000.

These startling statistics became known here today when figures compiled from the records of W. S. Decker, city building inspector, showed that 353 residences and apartment houses have been constructed in Santa Ana in the past six months.

The average virtually has been two every day since January 1. Based on the conservative estimate that the average number of persons per residence is three, the statistics disclose that since the first of the year, Santa Ana has increased in population more than 1000 persons.

Business Section Active. At the same time it was pointed out that the tremendous population increase here has been balanced by an unprecedented building activity in the business sections of the city.

During the six-month period just closed, permits were issued by Decker for three new grammar schools, an administration building for the board of education, a three-story modern hotel and store structure, seven public garages, five business blocks, four smaller office buildings, three large warehouses, a shop building, a commercial ice-making establishment, a huge creamery and refrigerating plant with a large garage and machine shop in conjunction, repairs on several stores and improvements totalling \$10,000 at the Elks club.

Many Residences Built. During the 1922 period, 312 permits were issued for houses and 41 for apartments. One hundred and nineteen were taken out for private

investors who are interested in the future of Santa Ana are taking no chances in connection with securing choice lots here, according to A. B. Rousseau, owner of McFadden Tract No. 3.

"I have just received a telegram from L. R. Fosdick, a public utilities man of Galva, Ill.," said Rousseau, "in which he instructs me to put him down for another lot, adjoining the six lots we sold him last week. This makes a total of thirty-eight lots we have sold in Tract No. 3 in the past two weeks."

"This proves that Eastern investors are taking no chances in their determination to secure choice lots here while they are still available. Fosdick, who expects to make his permanent home in Santa Ana, realized that the best lots are selling rapidly, and after purchasing six lots, he decided to clinch another."

"The rapidity with which subdivisions properties are selling is a

## Fresh Cut Flowers Delivered 3,000 Miles

—A Santa Ana lady entered our shop a few days ago. She had planned to send a remembrance to her parents on their wedding anniversary.  
—She had neglected—the anniversary was that very day—"What can I do?" she asked.  
—"If your folks lived just around the corner we could deliver choice cut flowers within an hour or two."  
—"Yes!" she interrupted, "but they are 3,000 miles away."  
—We replied that through the F. T. D., we could arrange delivery 3,000 miles away as easily and quickly as delivering just around the corner.

## \$193,000 STATE HIGHWAY WORK CONTRACT LET

Work of improving the state highway beginning at a point at San Juan Creek and extending southerly a distance of 8.77 miles, at a cost of \$193,160.70, will probably start within the near future and may be finished in four or five months, according to J. L. McBride, county engineer, here today.

The state highway commission has awarded the contract for this work to George H. Oswald of Los Angeles on his bid of \$126,615. The state will furnish materials which will bring the total cost up to \$193,160.

"This work calls for the widening and thickening of the present highway," said McBride, "and will greatly improve the road. Three miles of the highway will be similar to that north of Fullerton, with a thickness of eight inches and a width of twenty feet. The present road is about fifteen feet wide."

"I do not know just when the work will start, but inasmuch as the state has awarded the contract to Oswald of Los Angeles, who also has the contract for the Tustin improvements now being made, I assume there will be little delay in getting started."

"It is difficult to estimate the time the improvements will take, but I should think the work will be finished within four or five months, if strike conditions do not delay shipment of materials. Detours probably will be made on McKinley avenue, in San Juan Capistrano and west of Trabuco creek."

McBride said portions of the present road have been shattered on account of numerous cuts and fills and the peculiar action of the adobe soil.

common brick with yellow mortar construction and a trim of ruffled brick.

Truscon steel construction will be used throughout.

The roof will be made of wire glass so that all or any part may be raised on hinges working on a long truss which will be operated from the floor of the plant. This arrangement will enable the laundry to secure as much light and air as may be deemed necessary.

Plan Modern Machinery. The machinery and equipment of the laundry will be of the latest and most modern type. Plans call for twelve presses, twelve extractors, three flat work ironers, a sock darning, a sorting wheel and three huge boilers to be located over the engine room. The boilers will have a capacity for 10,000 gallons of water.

The main laundry room will be painted with white enamel spray.

That the officials of the company intend to equip the plant with the most modern conveniences for their employees, was indicated when it was announced that a mezzanine floor will be erected where a lounge room, measuring 32 by 18 feet, will be situated. This will be connected with a kitchen where hot lunches may be prepared.

The general and private offices of the concern also will be located on the mezzanine floor.

Maintain Special Rooms. Special rooms will be maintained on the ground floor for the distributing, starch and marking departments.

Permits issued by Building Inspector Decker during the past week included one of \$45,000 for the new business block to be erected for L. D. Mercereau at the southeast corner of Fifth and Sycamore streets, one of \$30,000 for general improvements and additions to the Hill and Son Hardware store at 213 East Fourth street, and others.

## CONSISTENT OIL DEVELOPMENT FORECAST

BY ELLWOOD J. MUNGER

Huntington Beach has settled down to a good and substantial oil field where there will not be any more big gushers brought in perhaps but where development will go forward successfully in proven territory. The week's review of the field shows that the Argonaut Oil company, the Federal Consolidated, the Kiseau Oil syndicate, McIntyre Brothers, and the Standard Oil company brought in new production.

The Argonaut Oil company's Harvey No. 1, completed at 3601, after a long and much checkered career, has its No. 1 ready to go on the pump. The Kiseau Oil syndicate completed its initial well at Huntington Beach at a depth of 3730 and got a 125-barrel producer.

McIntyre Brothers have placed Royalty well 2-3 on production at 125 barrels. This well was drilled to 2510 and is producing 20 gravity clean oil.

The Central Oil company, one of the old line concerns that has stuck to the development of the old Whittier field, has gone into Huntington Beach. The Central has a lease on lots 2703, 2704, 2705, and will start drilling a well on Lot 2703 at once.

The Huntington Central Oil company will drill a second well on the O'Gard lease near Main street.

Gothard No. 1 has been on production almost a year and continues to make 120 barrels.

To Clean Out Well

The West Seaboard Oil company's No. 1 failed to make commercial production and at 4095 and is being cleaned out with the intention to deepen.

The Standard Oil company's producer on the Bolsa Chica Dome, Lomita No. 1, is attracting some attention in that it is the first one of the "Chinese Tunnels" to go on production, and in a single week's time this well has increased its output from 150 barrels to 400.

Henry R. Dabney's Seal Beach well got a temporary set back in failing to get an initial shut-off on the water at 3035. The well has been re-cemented and showed a lot of good oil sand in the bottom of the hole at 3042. The showing seems to leave little doubt now about Seal Beach.

The Standard Oil company has the deepest test well ever drilled in the Richfield district. The Standard's Kellogg No. 2 is now at 5665 in hard grey sand. The indications for production are not at all encouraging.

The Union Oil company's Dickson No. 1 enjoys the distinction of being the deepest well actually making production in Southern California. Dickson No. 1 was recently completed at 4800 feet and is pumping about 200 barrels of fluid a quarter of which is oil of good gravity.

Field Redeems Self

Santa Fe Springs has practically redeemed itself with the Amalgamated Oil company's Dalluge No. 1 coming back a 2500-3000 barrel well.

Owing to the failure of the Union Oil company's Flood well to show any indications of oil at 4500 feet a number of wells in the northwest side of the field are standing pending developments.

The General Petroleum's Santa Fe No. 4, completed at 3940 is the week's headliner at Santa Fe Springs. This big well started off at a little better than 1600 barrels and is producing 32.2 gravity oil.

The Shell company brought in a nice high gravity well at G. H. N. No. 1. This producer, completed at 3780, is making close to 600 barrels of 29 gravity oil. The oil is coming clean from the sands, and the well is flowing nicely.

The production of Signal Hill was boosted another 8000 barrels during the past week. Four wells made this increase, the Henderson Petroleum company's Helen de L. the Coast States No. 1, and the Shell company's Cherry Hill No. 2 and Church No. 1 redrilled.

The Holmes Oil company did not get into gusher production with its No. 1 recently completed at 3185. The well failed to do anything at flowing and was put on the pump, an oil making between 250 and 300 barrels.

determining factor in inducing Eastern buyers and other interested parties in making prompt selections. The growth of Santa Ana has been little short of phenomenal and the fame of the city has spread to all parts of the country.

"Fosdick was one of those who was determined not to be left out, hence his purchase of the seven lots. The seven lots purchased by Fosdick were sold at \$850 each."

Rousselle, who reports active building operations in the tract, said that some of the most attractive residences in Southern California will be erected here.

Eracts Three Houses

Among those now engaged in active building operations is A. Green, of Anaheim, who will erect three houses on Berkeley street, between Cypress and Orange avenues, at a cost of \$2,500 each. Others who are building include:

A. V. Anderson, \$3,000 home on Edinger street, between Orange avenue and Maple street.

B. L. Glazner, \$3,200 home, corner Edinger and Cypress streets.

George Best, \$3,300 home, on Main street, between Pomona and Berkeley streets.

L. W. Lutes, \$2,500 home, on Pomona street, between Cypress street and Orange avenues.

Edwin A. Baird is building a \$3,400 home, at the corner of Orange avenue and Oxford streets, in McFadden Tract No. 1.

The man or woman who overeats is sowing the seeds of ill-health. Just as certain to shorten life as a lighted candle is sure to burn up its wax.

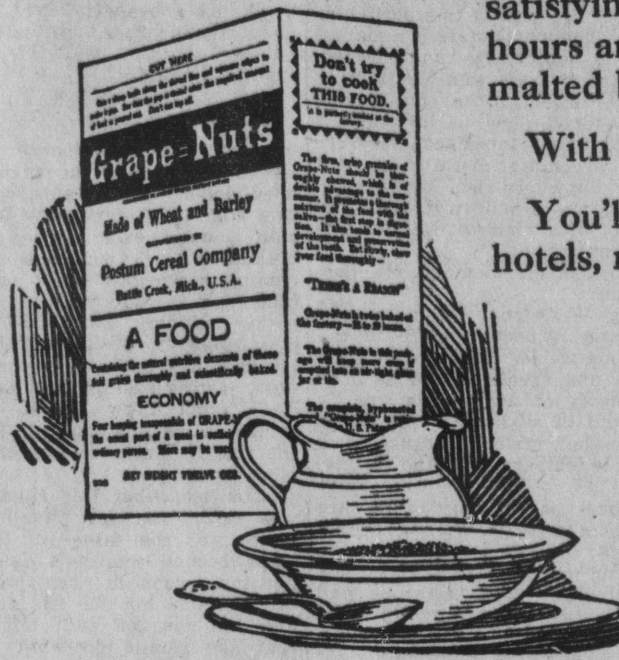

To feel your best, to do your best work, to keep healthy for many long, happy years, you cannot afford to eat heavy, indigestible food.

That's why men and women of energy and activity everywhere make Grape-Nuts a regular part of their diet.

Grape-Nuts is a sensible food, delicious, nourishing, satisfying and sustaining—a cereal food baked for 20 hours and made entirely from whole wheat flour and malted barley.

With milk or cream, Grape-Nuts is a *complete* food.

You'll find Grape-Nuts sold everywhere—grocers, hotels, restaurants, lunch-counters, etc.

**GEO. W. LEMONS**  
ADVERTISING  
DIRECTOR

Author of "I Am Truthful Advertising" Shown Over County By Old Friend

Orange county, Santa Ana, and incidentally, The Register had a distinguished visitor yesterday afternoon in the person of George W. Lemons, advertising director of The Dallas (Texas) News and the Journal of the same city.

Mr. Lemons, accompanied by his family, made the trip to California by motor, and have been resting for a few days at San Diego, making short trips up the coast and into the interior as they wished. Before returning home they expect to tour the state comprehensively.

Mr. Lemons' call at The Register was an agreeable surprise to the business manager of this paper, Mr. W. B. Leecraft, who used to work with Mr. Lemons on the Dallas News. Mr. Leecraft took the visitor for a drive over Santa Ana and vicinity, much to his surprise and delight. Upon his return Mr. Lemons said:

"This place is a paradise. I have been in California several times, but I never before visited this particular locality. The whole state is a marvel of beauty, enterprise and productivity, and a man who visits it is fortunate indeed if he can receive the broadened view of life that it must give to any intelligent observer without becoming dissatisfied with life lived anywhere else. My observation leads me to believe that the latter effect of a visit to California is almost universal."

Speaking of Mr. Lemons, Mr. Leecraft said: "George W. Lemons is a nationally known and respected figure in the advertising world. In Texas we used to think and speak of him as 'The Abe Lincoln of advertising,' partly on account of a slight similarity of physique, but mainly because of a likeness in temperament and character."

"Lemons' advertising ideals are revealed in a little writing of his that was published all over the world, and it is safe to say that his philosophy of life as a whole and his ideals of citizenship and manhood are founded on the same principles he so simply and forcefully expresses in this little prose poem—a classic, I call it—entitled 'I Am Truthful Advertising.'"

Mr. Leecraft had a copy of this article and it is published elsewhere in this paper.

"That chap! When he was in the full cry and ecstasy of his hunt after Sabre, the perspiration streamed down his face like running oil, and he'd flap his great red tongue around his jaws and mop his streaming face and chuck away his streaming mane; and all the time he'd be stooping down to Twynning, and while he was stooping and Twynning prompting him with the venom pricking and bursting in the corners of his mouth, all the time he was stooping this chap would leave that great forefinger wagging away at Sabre, and Sabre clutching the box, and his face in a knot, and his throat in a lump and choking out 'Look here—Look here—'

"I tell you... 'I was standing right across the court at right angles to him. I was wedged tight. Scarcely breathe, let alone move. I wrote on a bit of paper to Sabre that I was here and let him get up and ask for me. Sabre snatched the thing as if he was mad at it, and read it, and buzzed it on the floor and ground his heel on it. Just to show me, I suppose. Nice! Poor devil, my gooseberry eyes went up about ten degrees. Bit later I had another shot. I—well, I'll come to that in a minute.'"

"They pushed off the case with obvious witnesses—police, doctor, and so on. Then the thing hardened down. Then Sabre saw what was coming at him—saw it at a clap and never had remotely dreamt of it; saw it like a tiger coming down the street to devour him; saw it like the lid of hell slowly slopping away before his eyes. Saw it! I was watching him. He saw it! and things—age, gravity, lasting and immovable calamity—I don't know what—frightful things—came down on his face like the rust of ashes settling on a polished surface."

"You see, what this Humpo fiend was laying out for was, first that Sabre was the father of the girl's child, second that he'd deliberately put the poison in her way, and brutally told her he was done with her, and gone off and left her so that she should do what she had done and be rid of her. Yes. Yes, old man. And he'd got a case! By the living Jingo, he'd got such a case as a Crown prosecutor only dreams about after a good dinner and three parts of a bottle of port."

"Listen. Just listen and see for yourself. Worked off the police evidence and the doctor, d'you see? Then—'Mr. Bright!' Old man comes up into the box. Stands there massive, bowed with grief, chest heaving, voice coming out of it like an organ in the Dead March. Stands there like the father of Virginia thinking of Appius Claudius."

"Like this, his evidence went: Was father of the deceased woman (as they called her). Was employed as foreman at Fortune, East and Sabre's. Had seen the body and identified it. So on, so on."

"Then Humpo gets on to him. Was his daughter the sort of girl to meditate taking her life? 'Never! Never!' Great rending cry that went down to your marrow. Was any particular individual instrumental in obtaining for her work which took her from beneath his roof? 'There! There! Cleverest and half his body over the box towards Sabre.'"

"Look here! bursts out Sabre. 'Look here!'

"They shut him up. 'Answer the question, please, Mr. Bright!—'Mr. Sabre led to her first going from me. Mr. Sabre!'

"Was the situation thus obtained for the girl nearer her father's house or nearer Mr. Sabre's?—'Not a quarter of an hour, not ten minutes, from Mr. Sabre's house.'"

"Had the witness any knowledge as to whether this man Sabre was a frequent visitor at the place of the girl's situation?—'Constantly, constantly, night after night he was there!'

"Was he, indeed? says Humpo, mightily interested. 'Was he, indeed? There were perhaps great friends of his own staying there, one or two men chums, no doubt?—'No one! No one!' cries the old man. 'No one but an old lady, high bedridden, past seventy, and my daughter, my daughter, my Edie.'"

"Had the witness recently been shown a diary kept by Mr. Twynning at that period?—'Yes! Yes!'

"And it contained frequent reference to Sabre's mention in the office of these visits?—'Yes! Yes!'

"Did one entry reveal the fact that on one occasion this Sabre spent an entire night there?—'Look here—bursts out old Sabre. 'Look here—'

"Can't get any farther. 'Yes,' groans old Bright out of his heaving chest. 'Yes. A night there.'"

"And on the very next day, the very next day, did this man Sabre rush off and enlist?—'Yes. Yes.'"

"Viewed in the light of the subsequent events, did that sudden burst of patriotism bear any particular interpretation?—'Running away from it,' heaves the old man. 'Running away from it.'"

"Look here—' from Sabre again. 'Look here—' Same result. 'So this Humpo chap went on piling it up from old Bright like that, old man; and all the time getting deeper and getting worse, of course. Sabre getting the girl into his own house after the old lady's death removes the girl from the neighborhood; curious suddenness of the girl's dismissal during Sabre's leave; girl going straight to Sabre immediately able to walk after birth of child, and so on. Blacker and blacker, worse and worse."

duty to inflict upon you. A final question: 'Have you in your own mind suspicions of the identity of this unhappy woman's betrayer?'

Old man cannot speak for emotion. Only nods, hands at his breast like a prophet about to tear his raiment. Only nods.

"Do you see him in this court?—'Old man hurls out his arms towards Sabre. Shouts, 'There! There!'

"Warm-hearted and excellent Iscarot leaps up and leads him tottering from the box, court seethes and groans with emotion; Humpo wipes his streaming face, Sabre stammers out, 'Look here—Look here—' Case goes on.

"Someone bawls, 'Next witness. Mark Sabre.' Court draws an enormous breath and gets itself ready for butchery to make a 'tidbrough holiday.'"

Hapgood went on:

"He was distraught. He was speechless. He was clean crazed. 'At the very beginning, with the coroner, he wouldn't use the word 'the deceased.' Insisted on keeping calling her Effie. Coroner kept pulling him over it, and about the twentieth time pulled him up hard."

"Poor chap threw out his arms like he was throwing the word away and then hammered on the ledge, I won't say deceased. I won't call her the deceased. Vile word. Horrible word. Obscene, beastly, hateful word. I won't call her it. Why should I call her the deceased?'

"Control yourself," says Buddha. 'Control yourself.'"

"He only waved and thumped again. 'I won't. I won't. I knew the girl. I was fond of the girl. She was my friend. She was fond of me. I did more for her than anyone in this court—her father or anyone. When she was in trouble she came to me and I succored her. She cooked my meals for me. We went through it together. I've known her for years. I've liked her for years. And now she's dead and you turn around and tell me to call her the deceased. Effie, Effie! Do you hear?—Effie!'

"They couldn't stop him. He was like a sick wolf then, cornered, and Buddha like a big, wary boarhound going in at him and jumping on the wall out of the way when he made his dashes and then coming down and going in at him again."

"What date did the deceased leave your wife's employment?—'In March. Look here—'

"Did she leave of her own wish or was she dismissed?—'Look here—'

"Was she dismissed because your wife suspected you of relations with her?—'Look here—'

"Answer the question, sir. 'Look here—'

"Very well, sir. Answer me this question then. Is it a fact that your wife has instituted divorce proceedings against you?—'Look here—'

"Court surging with sensation at this dramatic disclosure, Humpo mopping his face, keeping the great forefinger going."

"Is it the fact that in these proceedings the deceased woman is named as correspondent?—'Look here—'

"You keep asking me to look here, sir, but you tell me nothing. I ask you plain questions. Have you nothing better than 'Look here? Is it the fact that these papers were served on you at Brighton on the occasion of your flight?'

"Flight—flight—Look here!—'Is it the fact?—'

"Yes, Brighton, yes. But, look here—flight! flight! Holiday, I tell you. Holiday!'

"Holiday—' cries Humpo. I thank you for that word. We will examine it in a moment. Let me ask you to carry back your mind to the summer of 1915—'

and he takes the unhappy man through all the stuff he got out of old Bright—Sabre's apparently uncalculated interest in the girl, first getting her from her father's house to the neighborhood of his own, then under his own roof, and all the rest of the unholy chain of it. Then he has a chat with Twynning, then mops himself dry, and then hurls in again."

"Now, sir, this holiday. Did you make any preparations for it, any purchases?—'No. Purchases? No. Look here—'

"Never mind about 'Look here,' sir. No purchases? What about the oxalic acid? For what purpose?—'

**Says His Prescription Has Powerful Influence Over Rheumatism**

Mr. James H. Allen, of Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allen's, to others who took it with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allen's with the understanding that if the first pint bottle does not show the return to complete recovery he will gladly return your money without comment.

**Studebaker**  
BIG-SIX SPEEDSTER

THE new Studebaker Four-Passenger Speedster is mounted on the Big-Six chassis with the same dependable 60 horse-power motor that made enthusiasts of thousands of owners during the most critical buying period in history.

Every item of its complete equipment and finished detail suggests ultra style and riding comfort.

The front seat is tilted at the correct angle for comfortable riding. An upholstered armrest divides the tonneau into

two individual seats which provide the comfort of an overstuffed armchair.

The touring trunk at the rear, with tray and suitcase compartments, is easy of access, because the two spare disc wheels are mounted on each front fender.

These disc wheels, complete with cord tires and tubes, are furnished without extra cost.

This latest Studebaker creation reflects Studebaker's seventy-year-old reputation for building fine vehicles.

In addition there is a handsome set of nickel-plated bumpers front and rear, a courtesy light on the driver's side, a built-in, thief-proof transmission lock which is operated by the same key that locks the ignition switch and tool compartment in the left front door. ## BIRTHDAY PARTY IS PLEASANT AFFAIR

WINTERSBURG AND SMELTZER, July 13.—Miss Mary Crane delightfully entertained Sunday noon honoring the eighteenth birthday of her sister, Miss Floreal. A large white birthday cake centered the table and was served with delicious coffee. Those present besides the honoree and the hostess were:

Mr. and Mrs. George Crane, son, S. J. Mr. and Mrs. Charles Graham, sons, Alvin and Arthur, and Allen Gialer, of Talbert.  
The Young Peoples' class, called the "Keep-at-it" class, with their teacher, Mrs. Wilmarth, enjoyed a wicker bake on the sand at Huntington Beach, recently. About twenty-five were present, which is a good sized crowd for a small church, it was declared.

Mr. and Mrs. George Crane were called to Santa Ana Sunday evening by the serious illness of Mr. Crane's father, who passed away last Monday.

Mr. and Mrs. J. T. Dilley attended a theatrical performance in Santa Ana Saturday evening.  
Ray Shaffer, who suffered a severely burned hand a few weeks ago, has recovered sufficiently to return to his work.  
The Elmer Gothard family moved to Santa Ana the past week.

**Birthday Dinner.**  
Mr. and Mrs. Turner, of Smeltzer, entertained Sunday at a 4 o'clock chicken dinner honoring Mrs. Turner's father, L. A. Wallace, of Wintersburg. The table with its snowy whiteness was centered with a beautiful bouquet of pink carnations and fern. A lovely white birthday cake graced the table bearing forty-four tiny pink candles, one for each year, and also carrying out the color scheme. The cake was served with ice cream besides all the other good things that make a chicken dinner.

Those present besides Mr. and Mrs. Turner, were the honored guest, his wife and three children and Mr. and Mrs. Jess Howard and their two sons, of Balsa. The party broke up late in the evening with many good wishes for Mr. Wallace.

James Roberson, who formerly resided here on the Jess Worthly place but is now living on the Irvine ranch, is ill and is taking treatments from a specialist in Long Beach. He and his family are temporarily located at the Ross Roberson home so as to be near the physician.

**Persons.**  
Mr. and Mrs. Ed Kronesh and baby daughter of Taft are now located in Anaheim. Kronesh is an oil worker and is employed at Santa Fe Springs. Mrs. Kronesh has spent the past month visiting her parents, Mr. and Mrs. J. T. Worthly.

Dr. and Mrs. Littell, of Santa Ana, were callers Sunday at the W. W. Blaylock home.

W. T. Vanduff and daughter, Opal, made a trip to San Diego Saturday, returning Sunday evening. They report a fine trip.

The E. Ray Moore family spent Saturday and Sunday at Cucamonga with the W. A. Beuler family. The Beulers formerly resided at Smeltzer.

Word received from Mrs. Pratt, who is in Indianapolis, where she was called by the severe illness of her mother, states that they removed her mother from the hospital to the home of one of her sons. She is no better, however. Mrs. Pratt will remain indefinitely.

C. Bonebrake made a business trip to Los Angeles Monday.

Mrs. C. C. Bonebrake visited from Wednesday until Friday evening with her sister in Los Angeles. Mr. Bonebrake cared for the children during the mother's absence.

Mrs. Elmer Turner's sister, her husband and son, Mr. and Mrs. Charles Snyder, of Canada, are here to spend the summer at the Turner home.

**Garage structures alone.**  
Of the total number of houses, 149 permits noted an intention to erect garages in connection.

In addition to the permits for residences, apartments and various business enterprises, approximately 100 other permits were issued for additions and alterations to residences, construction of auto sheds, parking places, gas and oil stations, barns, combination houses and garages and small buildings.

One permit was taken out for a greenhouse and another for a chicken incubator house.

**Total Shatters Record**  
All these helped swell the Santa Ana January-to-June 30 ending total to \$1,854,240 which shattered all past records for any similar period here.

Even with the great building program under way in the business section of Santa Ana, permit values disclose that virtually 50 per cent of the entire amount represented dwellings, flats and apartment houses to cope with the influx of new city residents.

Building records show that May and June were the busiest months since the first of the year, a total of 120 residences or apartments being erected in that period.

## IRVINE

IRVINE, July 13.—Mrs. Ira Peters was in Santa Ana Monday.

Mr. and Mrs. Earle Marshall and Kenneth, are spending the week in Huntington Beach.

Mrs. Ola Thompson, of Kansas City, Missouri, is visiting at the home of Mr. and Mrs. Philip Ahern.

Mrs. William Graves and daughter, Virginia, of Long Beach, are visiting Mrs. L. Graves at her home here.

## MISSIONARY FROM SOUTH AMERICA IS HEARD AT CHURCH

GARDEN GROVE, July 13.—Mrs. Linden, a returned missionary from South America who is visiting at the Harry Lee home, spoke at the Baptist church last Sunday morning during the Sunday school hour and the regular preaching service.

In the evening the new Free Methodist preacher, the Rev. F. S. Hellman, preached a splendid sermon at the Union meeting. The Baptist male quartet sang two selections.

Mr. and Mrs. E. G. Newman and family have arrived here from Jerome, Idaho, and will make their home on Mrs. Mary Winter's ranch west of town. Mr. Newman is Mrs. Winter's brother.

Miss Clara Lott is enjoying a month's vacation from the E. R. Schneider grocery store.

Mr. and Mrs. D. L. Tyler, accompanied by the former's brother, Sam Tyler and wife, of San Diego, spent Saturday and Sunday at the home of Mr. and Mrs. T. M. Elder in Los Angeles.

Mr. and Mrs. Maurice Wirwick and daughter, Maxine, returned to Pomona Monday after a week's visit at the home of Mrs. Wirwick's parents, Mr. and Mrs. T. E. Niles.

Eugene Winters, the small son of Mr. and Mrs. Frank Winters, was brought home from the Anaheim hospital Sunday, where he has been ill for the last three weeks. He is getting along nicely.

Mr. and Mrs. D. Hogue accompanied by Mrs. Mary P. Edmunds visited at Ontario Sunday.

Mr. and Mrs. E. R. Stillens were Los Angeles visitors Saturday.

Mr. and Mrs. Artis V. Edwards have returned from a two weeks' vacation trip to Bishop and will make an extended visit at the home of the latter's parents, Mr. and Mrs. T. M. Lambert.

Mr. and Mrs. E. E. Weethoe and Miss Bill Brodies, of Orange, were Sunday dinner guests at the John Ward home.

Miss Pearl Blacholder returned Monday from a week's visit with relatives in Los Angeles.

Mr. and Mrs. William Morrell and Mr. and Mrs. Maurice Wirwick and daughter, Maxine, motored to Laguna Beach Thursday.

Misses Mabel Hortheross and Elsie Clark went to Long Beach Monday where they will spend several days.

Mr. and Mrs. George Ryburn and Miss Mildred Martin spent Friday at Anaheim Landing.

Ethel Ladd has accepted a position at the Pacific Electric station at San Bernardino. Ladd and his family motored there Tuesday.

Mr. and Mrs. Elmer Preston and little daughter motored to Huntington Beach Saturday where Mr. Preston is employed in the oil fields.

Electrically protected safety deposit boxes for rent by First National Bank, Garden Grove.

## CALL OF OPEN ROAD LEADS TO FAR NORTH

WINTERSBURG AND SMELTZER, July 13.—Mr. and Mrs. Lewis, Miss Esther Lewis and R. L. Draped left Saturday morning about 4 o'clock in Drapers' car for Seattle. The party will camp enroute and expects to be gone about three weeks. Mr. and Mrs. Asa Hadley will call for the place during the absence of the party.

Mr. and Mrs. Kelly Kilpatrick, who have been at the Charles Graham home the past month, left Saturday for Long Beach to reside. Mr. and Mrs. Walter Graham also moved to Long Beach Saturday.

A. H. Pierce, of Huntington Beach, called Friday morning at the home of his sister, Mrs. Clinton Brush, on his way to Encinitas where he will remain about a month.

Mrs. Helen Scott and 5-year old daughter, Audrey, of Brea, called Saturday at the C. A. Brush home. Mrs. Scott and Mrs. Brush were old school friends. This was their first meeting in about nine years.

Mr. and Mrs. Fox and Mr. and Mrs. Wardwell, of Huntington Beach, attended a reunion of the Hoff family at La Verne Sunday. About twenty-five were present. Mr. Hoff is the father of Mrs. Fox and Mrs. Wardwell.

Mr. and Mrs. Horace Moore and daughters, Mildred and Maurine, were dinner guests Sunday of the H. O. Ensign family of Newport Heights.

Work has begun on cleaning the dust from the new boulevard from the cemetery to the school house. This is good news for the residents of this community as the dirt roads are in a deplorable condition due to so much trucking to the oil wells, it is said.

The eighth grade and a few friends gave a surprise party Friday evening on Leona Maxwell, who with her family will leave Saturday for their home at Bellflower. Leona was a member of the June graduation class and has many friends who regret her departure.

Mr. and Mrs. Charles Graham and Alvin spent Sunday evening at the C. A. Brush home.

The Montgomery Bus line operating between Philadelphia and Rosemont, Pa., have six buses in service. Standard equipment. GENERAL Cords, 36x6 and 40x8 are the sizes used. The first tires to be taken off the wheels delivered 27,341 miles.

## CONTINUITY OF MUSIC STUDY BETWEEN U. C. AND SCHOOLS DESIRED

Through its official board of governors, the California Federation of Music clubs, at its recent meeting in Los Angeles, passed a resolution recommending to the University of California that the music departments be standardized and systematized to meet the requirements of high school graduates desiring to continue their musical studies in the university.

Lillian Birmingham, of San Francisco, recently elected president of the federation, presided at the meeting. Clarence Gustlin, first vice-president, June Hamilton Rhodes, assistant director of publicity, and others of this city were present.

It has been the chief aim of the California Federation of Music clubs to promote better musical conditions in the state public schools, to encourage choral and orchestral organization within them, to stimulate interest in musical history theory and compositions, prizes have been offered and awarded. Music has been made by the state board of education a "Major subject," and adequate credit has been given; the state university is now in a position of having to meet the requirements of the high schools of the state instead of the high schools meeting the university requirements.

There has also been concerted effort on the part of all federated clubs to promote the interest of young California artists and composers and to give local artists preference in concert engagements, wherever practicable. The Young Artists' Registration Bureau has been maintained by Mrs. Percy Brown in the South and Mrs. Charles Ayres in the north, thus placing the young artist before the public at no expense and under the best possible conditions.

A new department has been added to federation activities, "Industrial music," under the capable direction of Miss Antoinette Sabel, who is director of industrial music for the city of Los Angeles and through whose efforts thirty-five musical organizations have been added to the federation.

A new slogan and the federation aims, drafted at a previous meeting, were read and adopted. They are as follows:

"A Greater Musical California." aims of the federation—"To make music an integral part of the life of the nation; to promote and develop American Art and Artists; To make California the music center of America."

## "BACK PAY"

Fannie Hurst Story in Film Form Scores Artistic Success on Yost Screen

"If sin has any wages I have a lot of back pay coming!" And Hester Bevin got it.

The audience at the Yost last night saw Hester both earn and collect her back pay in "Back Pay."

The conflicting desires that control the destinies of every imaginative and pleasure-loving woman are vividly analyzed through Seena Owen, who has the leading role. Shall she stay in the little town of her birth, marry the man who loves her and give up all thoughts of riches or shall she essay a flight into the great city? She has a "crepe de chine soul" as she says, and decides to yield to it. In other words; she leaves, finds a protector and grows wealthy.

The man who loved her is near death from wounds received on the fighting line. She goes to him in the military hospital, marries him and takes him to her gorgeous apartment, for he is blinded and has but three weeks to live.

He asks no questions and dies with a great belief in her—a belief which is so strong and so compelling that it is transmitted to her and she begins once more to believe in herself. She flies from her "gilded cage" and turns to another life where everything she gets will be through her own honest efforts and bravery.

Matt Moore admirably plays the part of the inspired and inspiring Jerry. Others, adding strength to the brilliant cast are J. Barney Sherry, Ethel Duray and Charles Craig. The story was written by Fannie Hurst, made into a scenario by Frances Marion and directed by Frank Borzage.

**Other Features**  
Richards and Coots, a charming, wholesome girl and a regular "he-man" appear in a delightful little vaudeville song and repartee skit, "The Love Nest," which is further enhanced by an effective scenic set. Both have singing voices much above the usual vaudeville standard, their selections are well chosen and the act is clean.

News and novelty reels and the "Hall Room Boys" in one of their comedies complete the bill which is to be repeated tonight.

Everyone knows Stetson hats, produced by the John B. Stetson company. Their trucks have been in service on the same set of GENERAL ALS since August, 1920. And the three still have lots of miles left. It will pay you to investigate Generals. L. E. Martin, 211 North Main, phone 1961-W.

## BOOST BECKETT FOR BOUT WITH DEMPSEY

## Plan New 'Set Up' for Champ; Wills to Meet 'Tut' Jackson

BY HENRY L. FARRELL

(United Press Staff Correspondent)

NEW YORK, July 13.—Because it is part of a "building up" program, Harry Wills will have to fight someone to show that he qualifies for a chance at the heavyweight crown. Carpenter had to knock off Bat Levinisky as required proof that he was good and Wills will have to polish the hide of one "Tut" Jackson, the latest phenom from Ohio.

Dave Driscoll, matchmaker for the fighting department of the Brooklyn Baseball club is after a Wills-Jackson fight for early fall and Jackson is said to be in more than a listening mood.

Wills can't make as much in six months on the Hoboken docks as he could get for an hour against Jackson and he probably will accept.

Being as Dempsey wants to fight himself back into condition and since the jury box in the ring is inclined to put thumbs down on the champion operating on one of his former victims, the British champion, Joe Beckett, may be lured across the pond to lay himself on the altar.

PLANS DEMPSEY-WILLS BOUT FOR JUNE 30, 1923

NEW YORK, July 13.—Tex Rickard says he has tentatively decided on June 30, 1923, for the Dempsey-Wills fight if he is the promoter. New York or New Jersey will be the place.

## MAN TAKES CLOSE FIGHT FROM TRIBBEY

## Local Idol and Santa Barbara Boy Stage Terrific Bout at Delhi

Delhi Results

Jack Iman beat Bert Tribbey,

decision.

Mike O'Leary-Jack Sparr,

draw.

Joe Chaney beat Al Freder-

icks, decision.

Paddy Dillon—Connie Hogan,

draw.

Dios Burrell beat Young Mon-

toya, decision.

Jack Iman took a hair-line deci-

sion from Bert Tribbey in the main

tangle at Boyd Ellis' Delhi arena

last night.

Hair-line is good. Iman copped the

verdict but it was by almost an in-

finitesimal margin and only came

after four rounds of reeling, careen-

ing mauling that kept the fans in

an uproar until the final tap of the

gong.

And incidentally the local boy came

about as close to losing a bout as

he will ever come and yet not lose

it. Jack and his followers would

hate to go through that torrid sec-

ond round again when all that

Tribbey needed was a solid punch to

win via the K.O. route.

At the end of the third session

the "Santa Barbara mauler" and the

edge. He had hammered Iman all

over the ring in the second and slip-

ped in a couple that staggered his

man in the first of the third.

Iman must have realized his plight

when that final round got under way.

Fighting like a wild man he was all

over Tribbey, slugging, punching and

jabbing him from one side of the

ring to the other. Tribbey tried to

stem the tide but the Santa Ana boy

didn't give him a chance to recuper-

ate. The last wicked session earned

Iman his verdict.

Tribbey is entitled to another shot

at the local fighter or a match with

some other good boy after his show-

ing last night for he certainly gave

the fans their money's worth.

Leo Matlock probably will oppose

Iman at Ellis' next carnival. Mat-

lock is the man that stopped Iman

at Hollywood two or three months

ago.

Mike O'Leary and Jack Sparr were

too good for each other in the semi-

windup. It was a neat boxing exhib-

ition at that and the fans liked it.

Referee Brown's draw decision was

well received.

"Delhi" Fredericks didn't have a

chance with Joe Chaney, the speedy

Whittier boy. Chaney substituted

for Young Terry of Whittier and

gave Fredericks an artistic trim-

ming. During the entire scrap the

Delhi boxer didn't land a punch. He

was helpless before Chaney's in and

out style and was a happy boy when

the thing was all over.

Brown slipped up a little when he

called the Dillon-Hogan mill even-

ing. Dillon couldn't hurt his oppo-

nent but he certainly outboxed him.

The Santa Ana boy looked in much

better condition than when he bat-

tled at Delhi two weeks ago. He

showed a lot of his old time speed

and cleverness.

Dios Burrell beat Young Montoya

in the comedy match of the card,

the curtain raiser. Burrell scored

knockdowns in the first and fourth

spasms but he didn't seem to faze

his man who came back for more

## EVENING SALUTATION

Hope is itself a species of happiness, and perhaps the chief happiness which this world affords; but like all other pleasures, its excesses must be expiated by pain; and expectations improperly indulged must end in disappointment.—Samuel Johnson.

## TROUBLES OF OUR OWN MAKING

Simple precautions would avert most of the railroad crossing horrors. Here are a few rules, which, if followed, would save many lives:

Never approach railroad tracks that must be crossed at grade, without this thought: "Here is the place where I must play safe!" Have your car under control, then you will be prepared for any emergency. You know the importance of having good brakes on your car. Look them over, from time to time.

Probably nine out of ten times there will not be a train near enough to check your progress over the tracks. Make no effort to go across, until, by careful use of both eyes and ears, you have sized up the situation.

All must agree that a little time spent in trying to protect life and limb is a good investment. We use up some time hunting bargains in stores. Better plan to hold onto the life you possess. No bargain counter has another to offer you. When your end comes, you will be a long time dead.

Maybe, when you get near the railroad tracks, you see a train coming, and the thought comes into your mind, "I can beat it across!" That thought is a mere whim. Your judgment is not speaking. In such a case, wait for your sober second thought.

Remember that a fast train can run the quarter mile from the whistling post to the crossing in fifteen seconds.

Do you admire a man who tried to beat a train over a crossing, when he has his family or friends in the car with him, depending upon him for protection? If such a man were to run his business so carelessly as that, we greatly fear that the balance would show up on the wrong side of his ledger.

Germany, always eager to oblige, will pay reparations to the Allies if the Allies will lend her the money.

## PICKING THE TWO PER CENT.

There is less criticism of the congressional plan to cut down immigrant quotas from 3 per cent to 2 per cent than there is of the failure of those who prepared the new immigration bill to work out a constructive policy of immigrant selection.

The present law was passed frankly as an "emergency" law—a stop-gap that would give the country breathing space and, while the flood of prospective immigrants was dammed up, would enable Congress to work out a permanent immigration plan. It has been recognized by every well informed person who has spoken or written on the immigration problem in recent years that the worst thing about our past practice has been letting the foreigners themselves decide who were to come. There has been some rough screening on this side of the water, but the logical method of sifting them on the other side before they start has not yet been adopted, and is not yet officially proposed.

The smaller the number of aliens admitted, the easier it should be to establish some such system abroad, to select desirable immigrants of a character that will fit properly into American life and industry. Why not combine such a system with the 2 per cent provision?

What profiteering business and profiteering labor need to do is to get down to brass tacks and sit on them for awhile.

## INTERNATIONAL TRUSTS

Far-off happenings reach and affect us all, eventually. Dutch and British rubber growers unite to regulate the output of rubber. To start with, 100,000 tons of surplus rubber will be held from market "to stabilize prices"—which means, send them up.

The buyer of auto tires may get the reaction later. We are entering a period in which international trusts will be a greater problem to consumers than monopolies at home and they will be harder to control. Frankly, how would you go about exerting control upon an international trust whose product is necessary to the economic welfare of the people of this country?

One of the paradoxes of life is that the fewer clothes women wear, the more they cost.

## ATTITUDE TOWARD LEPERS

Twelve hundred lepers are at large in our country. This is reported by the United States Public Health Service.

It is not many centuries since lepers were stoned out of town, their terrified assailants crying, "Unclean! Unclean!" Miserable creatures, they were allowed to beg only at the gates of cities.

Now lepers are rounded up when discovered, isolated to prevent contagion, and given good food and lodging and medical attention at the community's expense.

We are more sensible than our ancestors, also more humane. Does human nature change? Or is it merely custom that has changed?

Certain it is that in many things we use more of reason and less of consternation and prejudice than were used in centuries gone by.

Don't expect too much of Russia. Give it time. It wasn't discovered by civilization until long after 1492.

## AN APPEAL FOR CAUTION

The economic waste involved in the many grade crossing accidents, beside the suffering caused by these tragedies, is emphasized by I. L. Hibbard, general manager of the A. T. & S. F. R.R., Coast Lines, in a statement just issued in connection with the nation wide "Cross Crossings Cautiously" campaign, now going on. Mr. Hibbard's statement is as follows:

"Railway tracks in and of themselves constitute a warning of danger and persons approaching a crossing therefore can never assume that there is

no danger. The demand of the public for speed in the transportation of passengers and property has increased the hazard.

"Nearly one-half of all the accidents at grade crossings on the lines under my jurisdiction have resulted from a disregard by the traveling public of warning devices installed as directed by governmental authorities. There is a constantly increasing disregard of gates which are continually being run into and broken.

"I desire to make an earnest appeal for sympathetic interest and cooperation on the part of the general public in making effective the campaign which has been undertaken by the safety section of the American Railway association, with whom the automobile clubs and safety organizations throughout the country are cooperating, and I urge upon the drivers of automobiles and other vehicles the extreme importance of adopting as their own slogan—CROSS CROSSINGS CAUTIOUSLY."

The public must awaken to the importance of conserving human life and of avoiding the tremendous economic waste resulting from a growing disregard of the ordinary dictates of prudence.

Anyway there's one good thing about Russian and Germany money. Nobody tries to counterfeit it.

## Cost of Celebration

Fifteen hundred telephone subscribers in the northern part of San Bernardino probably have revised ideas on the subject of Fourth of July celebrations, because of the "palm tree fire" in front of the Intermediate school at Eighth and E streets on the night of the Fourth. There is little doubt but that a ball from a Roman candle lodged in the dry and dead leaves of the palm, and the resultant blaze put 1500 telephones out of commission and cost the telephone corporation hundreds of dollars, which the ultimate consumer will pay.

It is also quite likely that the grass fire which called the fire department out on the evening of July 4, and which was marked by such a fearful tragedy as the department was returning, was also caused by firecrackers, and if that is true—nobody will ever be able to say definitely—one human life was the toll, and two others critically hurt, with some damage to fire department equipment, and a certain damage suit against the city.

The cumulative evidence is likely to seriously raise the question as to whether San Bernardino can afford to join the long list of cities that have adopted the safe-and-sane Fourth of July celebration that bans firecrackers and fireworks. In very many cities the sale of them is absolutely prohibited, and that is the only way to handle it if the policy should be favorably considered. The Sun has never before declared for such a policy. We confess we have a fellow-feeling for the kids, to whom noise means much in connection with Independence Day, but everything else connected with the observance of the day has changed in 50 years except the miscellaneous use of fireworks. We very much incline to the theory that they, too, must go.

## Trouble Ahead for Congress

President Harding's announcement of decision not to take his proposed Alaskan vacation has without doubt an ominous ring at the other end of Pennsylvania Avenue. If the President is going to remain in Washington, it is clear the statement in the upper and lower houses of Congress may properly conclude that their only opportunity for vacations is to go through with the program Mr. Harding has laid down.

Mr. Harding's influence with these statesmen whom the people have chosen to govern them may not be sufficient to compel enactment of his legislative program. But there lies ready to his hand a weapon which other chief executives have used with success and there is evidence that he is counting upon it to do effective work. Washington weather rarely fails to impress a statesman even though he may be impervious to arguments directed to that faculty which passes for intelligence. No lawmaker can function with dignity under the rays of a sizzling Washington sun.

Public sentiment will be with the President in whatever he may do to bring the gentlemen of House and Senate to a proper appreciation of their responsibilities. Compelling them to remain in Washington until they have discharged their duty may seem to verge perilously near infringement upon that provision of the Constitution which forbids cruel and unusual punishments, but a club may be used with propriety upon the sort of epidemics that nothing less can impress.

Three important pieces of legislation confront Congress for action. The pending tariff bill must be enacted for the conservation and preservation of the prosperity upon which the nation is already obviously entering. It's enactment is essential to industry; the Republican party and the administration in power are pledged to it, and the country is not disposed to accept excuses in lieu of performance. The ship subsidy measure appears equally as necessary if the republic is to have a merchant marine for the development of its foreign trade, and to provide an auxiliary arm for national defense in the event that enemies menace. The adjusted compensation proposal for the veterans of the World War is another essential bit of legislation.

## Stimulating Local Art

Robert De Bruce, manager of the Detroit Symphony orchestra, has discovered that modern hotel rates and railroad fares have rendered the old-style theatrical band concert tour far less profitable, thereby stimulating the creative art spirit in cities those from which these enterprises formerly emanated. Mr. De Bruce and others who hope for higher cultural values in this country regard this consequence of the conditions as indicative of a future when any sizable community in the United States may become operatically and dramatically self-sustaining, and so be independent of New York and Chicago. Another consideration in this regard is the possibility that local enterprise of this sort will eventually lift the "provinces" out of slavish subservience to the producers and impresarios who foist bad plays and bad actors and bad music on them under false labels of "Broadway success" and the "star" system that shines by contract with inferior satellites.

Every community, therefore, should concentrate all its effort in encouragement of its local resources of art culture in this direction.

## THE PHANTOM FLEET

The masts are white in the northern light,  
Sparred by eternal frost,  
By a deathless band are the vessels manned,  
The phantom fleet of the lost.

No blue smoke curled at the top of the world,  
As the ships rode searchingly;  
No lighthouse flashed where the icebergs crashed,  
Nor a pilot put out to sea.

The wind at the helm could not overwhelm  
The strength of the timbers wide,  
But the man at the wheel must be made to feel  
The thrust of the storm king's pride.

So the crackling blast of the tempest passed,  
But it left a frozen smile,  
And an armor of white for each brave knight  
Who had dared its power awhile.

Ceaseless and slow the crystal flow,  
As the hungry ice pack drew  
Through uncharted waste, unknown, untraced,  
The silent, sightless crew.

Stately and slow, as the cycles go,  
They'll float the Arctic Main;  
From its frozen grip no ghostly ship  
May e'er come home again.

## Talk

By Bertton Braley

Conversation is a bore. It's a wearisome debate. Just because we gabble more than our thoughts necessitate; We repeat, reiterate, Till the air with words is thick; Boy, if you'd grow rich and great, Say your say—and say it quick!

Don't expect to hold the floor While you wander and you prate; Think things out a bit before—You arise and "beg to state." Do not make us wait and wait For the point, till we grow sick, Strike a short and snappy gait, Say your say—and say it quick!

During centuries of yore, And at this, here, present date, Wily folk have made us sore, Sore at them at sore at fate; Speech should be both clear and straight, Why not learn to do the trick, Brevity's a golden trait; Say your say and say it quick.

PRESS COMMENT ON  
STATE POLITICS

## UNION FOR RICHARDSON.

San Diego Union—If the voters desire to maintain the present administration of their affairs, with a certainty that the next state budget will show continued increase of expenditure and taxation, they will vote for William D. Stephens, if they desire an economical and efficient business basis they will vote for Friend W. Richardson.

## THERE'S A REASON.

Woodland Democrat—The reluctance of conservative Republicans to enter the field against Senator Johnson is not due to any lack of aspiration or ambition but to the temperature that surrounds their pedal extremities.

## LOOKING TO THE PRIMARY.

Los Angeles Saturday Night—With the formal announcement of William D. Stephens as a candidate for re-election, followed by the avowed aspirations of Friend W. Richardson as a rival contender for the gubernatorial nomination on the Republican ticket, the campaign, which will come to a climax with the August primary election, may be said to be officially under way. Of course, it has been, unofficially, a "going concern" for many months, with the Governor strengthening his political fences hither and yon, especially hither, and the state treasurer hammering away at his economy of administration platform, with a sounding board attached to transmit dry echoes state wide. Mr. Richardson naively confides that the only thought he has in seeking to be governor is to be elected. This is fundamentally frank. It might have been hazarded that his main intent was to protect the taxpayers; but, no, that is secondary. First, the election, then the performance, which is to save the state millions of dollars by "kicking the present machine out of control." Mr. Richardson, it must be admitted, has proven a satisfactory state official, first as public printer, next as state treasurer; now he would be Governor. But he is pitted against one of the best campaigners California ever knew and while he may be able to out the executive it will be a man's job, make no mistake. Of course, the Governor will have to face the determined opposition of the semi-public utility corporations, and the banks, because of the King tax measure; but opposed to that is the tremendous hold he has on the "back streets," with powerful support from the women, urban and otherwise. It is odds on in favor of his return to Sacramento by a safe majority.

Adding to the general interest is the announcement of Lieut. Gov. C. C. Young, who asks for re-election on his merits, his good record as speaker of the Assembly for three sessions, and as president of the Senate for the last terms, supporting his claims. Mr. Young need not lose much sleep in the succeeding two months worrying about the outcome at the polls. He is likely to realize his ambition and should breeze in an easy winner.

EASY FOR JOHNSON.—Instead of being out here in California making a fight for renomination, Senator Johnson has been doing heroic work at Washington. It is doubtful if he will be able to come at all before the primary in August. But his candidacy is not in danger. A grateful citizenship will take care of that, to the extent of six figures and upward.

## ADVENTURES OF THE TWINS

## Dr. Snuffles Cures Another

By Olive Roberts Barton

One morning Mrs. Cottontail telephoned Dr. Snuffles, the fairman doctor, when Nancy and Nick were helping.

"I wish you'd stop in and see Cutie," she begged. "He's dreadfully sick and can't go to school."

So Dr. Snuffles hurried right over without eating the nice breakfast Nancy had fixed for him.

There lay Cutie, rolling over and over, and moaning and groaning. Dr. Snuffles looked at Cutie's tongue. Then he felt Cutie's pulse and put a big thermometer into his mouth.

"Yes," said he, gravely with a queer look at Cutie, "he's dreadfully sick. You'll have to pull down all the blinds and close all the doors and leave him quite by himself."

"He must not see anybody at all! And above everything else he mustn't have a single thig to eat."

Not a thing! Cutie opened one eye and then the other and looked at the doctor.

"Couldn't I have just a little peaseoup?" he asked in a weak voice.

"Not a thing!" declared the doctor, shaking a large spoonful of this bitter medicine every half hour, mixed with a little mustard and red pepper. "We're staying in bed two weeks."

"C-can't I have anything to eat, or read a book, or see my friends, or ride ships down the bed clothes, or play tin-soldier or anything?"

"No, siree!" Suddenly Cutie sprang out of bed.

"Mom, I'm better," he declared. "I think I'll go to school." (Copyright 1922 NEA Service)
